

# Developing Language, Promoting Learning

'Developing Language, Promoting Learning' is the new Language Development Service Policy Guidance prepared by the Language Development Service in the Royal Borough of Kensington and Chelsea. Its aim is to support headteachers, governors, managers and teachers in ensuring that educational provision within schools meets the language and learning needs of students across ethnic groups. Its key message is that the learning of both community languages and English as an Additional Language are important with examples of how some institutions have developed their practice in these areas.
