This paper provides the Audit and Transparency Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a local authority; and
- includes a number of challenge questions in respect of these emerging issues which the Panel may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

Members of the Audit and Transparency Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications

[www.grantthornton.co.uk](http://www.grantthornton.co.uk) ..

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Key Audit Partner or Engagement Manager.

# Progress at 25 February 2021

## 2019/20 Financial Statements Audit

We have completed our audit of the Council's 2019/20 financial statements. Our unqualified audit opinion was issued on the 19 November 2020 ahead of the 30 November 2020 deadline. We are unable to issue our Value for Money conclusion in respect of this work for 2019/20 as the Council's predecessor auditors have not yet issued their value for money conclusion in respect of the 2016/17 and 2017/18 audits (as they are pending the outcome of the Grenfell enquiries), and as a result we have been unable to issue our value for money conclusion for 2018/19.

We have completed our work on the Council's consolidation return following guidance issued by the NAO.

Finance officers are implementing plans to ensure that the accounts closedown and audit process meets the 2021 audit deadline which is potentially moving to 30 September 2021.

## 2020/21 Financial Statements Audit

We will commence our interim for the 2020/21 audit in March 2020. Our interim fieldwork includes:

- Updated review of the Council's control environment
- Updated understanding of financial systems
- Review of Internal Audit reports on core financial systems
- Early work on emerging accounting issues
- Early substantive testing

The results of our work will be included within the progress report to the next Audit and Transparency Committee. Our audit Plan is a separate item on the agenda.

We will report our work in the Audit Findings Report and aim to give our opinion on the Statement of Accounts by 30 September 2021

## Other areas

### Certification of claims and returns

We certified the Council's Housing Benefit claim by the revised deadline of 31 January 2021. There were no significant issues with the claim. There were no amendments made to the claim that impacted on the subsidy the Council receives.

We certified the Council's annual Teachers' Pensions return in accordance with procedures agreed with Teachers' Pensions. We identified the following issues from our work:

- Comparing the contributions to the percentage rate of the pensionable salary, identified variances of £1.5k in teacher's contributions and £2.4k in employer's contributions.
- Differences of approximately £60k for contributory salaries were identified from the return when compared to the underlying payroll reports.
- Testing of 60 teachers identified four teachers that were classified as having opted out of the scheme on the members portal, but were still making contributions, two teachers payslips could not be located, and one teacher's additional contributions were under recorded.
- We were unable to prove whether three refunds issued correctly related to a previous year.

Although there was an improvement in timeliness of responses to audit queries this year, there were still some delays which impacted on our work and meant that the claim was not certified until two weeks after the 30 November deadline.

We also certified the Council's annual Pooling of Housing Capital Receipts return in accordance with procedures agreed with the Ministry of Housing, Communities & Local Government. This was certified prior to the 31 January 2021 deadline.

There were no issues arising from our audit of this claim.

### Meetings

We met with your Chief Executive and Executive Director of Resources on 19 January as part of our quarterly liaison meetings and continue to be in discussions with finance staff regarding emerging developments and to ensure the audit process is smooth and effective.

### Events

We provide a range of workshops, along with network events for members and publications to support the Council. Your officers have attended our Financial Reporting Workshop in February, which will help to ensure that members of your Finance Team were up to date with the latest financial reporting requirements for local authority accounts.

# Audit Deliverables

2019/20 Deliverables	Planned Date	Status
<p><b>Annual Audit Letter</b></p> <p>This letter communicates the key issues arising from our work.</p>	December 2020	Complete
<p><b>Housing Benefit, Teachers' Pensions and other claims and returns</b></p> <p>Our certification of your claims and returns</p>	January 2021	Complete
2020/21 Deliverables	Planned Date	Status
<p><b>Audit Plan</b></p> <p>We are required to issue a detailed audit plan to the Audit and Transparency Committee setting out our proposed approach in order to give an opinion on the Council's 2020-21 financial statements and a Conclusion on the Council's Value for Money arrangements.</p>	March 2021	The Audit Plan is on the Agenda
<p><b>Interim Audit Findings</b></p> <p>We will report to you the findings from our interim audit and our initial value for money risk assessment within our Progress Report.</p>	June 2021	Not yet due
<p><b>Audit Findings Report</b></p> <p>The Audit Findings Report will be reported to the September Audit Panel</p>	September 2021	Not yet due
<p><b>Auditors Report</b></p> <p>This is the opinion on your financial statement, annual governance statement and value for money conclusion.</p>	September 2021	Not yet due
<p><b>Whole of Government Accounts</b></p> <p>This is the Assurance Statement on the Council's Whole of Government Accounts consolidation pack</p>	October 2021	Not Yet Due
<p><b>Auditor's Annual report</b></p> <p>This letter communicates the key issues arising from our work.</p>	November 2021	Not yet due
<p><b>Housing Benefit, Teachers' Pensions and other claims and returns</b></p> <p>Our certification of your claims and returns</p>	January 2022	Not yet due

# Sector Update

Councils continue to try to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider local government sector and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

# The Redmond Review

## The Independent Review into the Oversight of Local Audit and the Transparency of Local Authority Financial Reporting – “The Redmond Review” was published on 8 September.

The review has examined the effectiveness of local audit and its ability to demonstrate accountability for audit performance to the public. It also considered whether the current means of reporting the Authority’s annual accounts enables the public to understand this financial information and receive the appropriate assurance that the finances of the authority are sound.

The Review received 156 responses to the Calls for Views and carried out more than 100 interviews. The Review notes “A regular occurrence in the responses to the calls for views suggests that the current fee structure does not enable auditors to fulfil the role in an entirely satisfactory way. To address this concern an increase in fees must be a consideration. With 40% of audits failing to meet the required deadline for report in 2018/19, this signals a serious weakness in the ability of auditors to comply with their contractual obligations. The current deadline should be reviewed. A revised date of 30 September gathered considerable support amongst respondents who expressed concern about this current problem. This only in part addresses the quality problem. The underlying feature of the existing framework is the absence of a body to coordinate all stages of the audit process.”

Note that the 2020-21 deadlines for the Council to submit accounts to their auditor and for the auditor to provide their opinion is still under consultation with the Ministry of Housing, Communities and Local Government.

### Key recommendations in the report include:

- A new regulator - the Office of Local Audit and Regulation (OLAR) to replace the Financial Reporting Council’s (FRC) role and that of Public Sector Auditor Appointments (PSAA)
- Scope to revise fees - the current fee structure for local audit be revised to ensure that adequate resources are deployed to meet the full extent of local audit requirements
- Move back to a September deadline for Local Authorities - the deadline for publishing audited local authority accounts be revisited with a view to extending it to 30 September from 31 July each year
- Accounts simplification - CIPFA/LASAAC be required to review the statutory accounts to determine whether there is scope to simplify the presentation of local authority accounts.

### The OLAR would manage, oversee and regulate local audit with the following key responsibilities:

- procurement of local audit contracts;
- producing annual reports summarising the state of local audit;
- management of local audit contracts;
- monitoring and review of local audit performance;
- determining the code of local audit practice; and
- regulating the local audit sector.

The current roles and responsibilities relating to local audit discharged by the Public Sector Audit Appointments (PSAA); Institute of Chartered Accountants in England and Wales (ICAEW); FRC; and The Comptroller and Auditor General (C&AG) to be transferred to the OLAR.

### How you can respond to the Review

One of the recommendations was for local authorities to implement:

The governance arrangements within local authorities be reviewed by local councils with the purpose of:

- an annual report being submitted to Full Council by the external auditor;
- consideration being given to the appointment of at least one independent member, suitably qualified, to the Audit Committee; and
- formalising the facility for the CEO, Monitoring Officer and Chief Financial Officer (CFO) to meet with the Key Audit Partner at least annually.

Whilst Redmond requires legislation, in practice the second and third bullets are things which authorities could start doing now.

# Code of Audit Practice and revised approach to Value for Money audit work - National Audit Office

On 1 April 2020, the National Audit Office introduced a new Code of Audit Practice which comes into effect from audit year 2020/21. The most significant change in the Code is the introduction of a new 'Auditor's Annual Report', which brings together the results of all the auditor's work across the year. The Code also introduced a revised approach to the audit of Value for Money.

## Value for Money - Key changes

There are three main changes arising from the NAO's new approach:

- A new set of key criteria, covering governance, financial sustainability and improvements in economy, efficiency and effectiveness
- More extensive reporting, with a requirement on the auditor to produce a commentary on arrangements across all of the key criteria, rather than the current 'reporting by exception' approach
- The replacement of the binary (qualified / unqualified) approach to VfM conclusions, with far more sophisticated judgements on performance, as well as key recommendations on any significant weaknesses in arrangements identified during the audit.

## The new approach to VfM re-focuses the work of local auditors to:

- Promote more timely reporting of significant issues to local bodies
- Provide more meaningful and more accessible annual reporting on VfM arrangements issues in key areas
- Provide a sharper focus on reporting in the key areas of financial sustainability, governance, and improving economy, efficiency and effectiveness
- Provide clearer recommendations to help local bodies improve their arrangements.

## Implications of the changes

Grant Thornton very much welcomes the changes, which will support auditors in undertaking and reporting on work which is more meaningful, and makes impact with audited bodies and the public. We agree with the move away from a binary conclusion, and with the replacement of the Annual Audit Letter with the new Annual Auditor's Report. The changes will help pave the way for a new relationship between auditors and audited bodies which is based around constructive challenge and a drive for improvement.

The following are the main implications in terms of audit delivery:

- The Auditor's Annual Report will need to be published at the same time as the Auditor's Report on the Financial Statements.
- Where auditors identify weaknesses in Value for Money arrangements, there will be increased reporting requirements on the audit team. We envisage that across the country, auditors will be identifying more significant weaknesses and consequently making an increased number of recommendations (in place of what was a qualified Value for Money conclusion). We will be working closely with the NAO and the other audit firms to ensure consistency of application of the new guidance.
- The new approach will also potentially be more challenging, as well as rewarding, for audited bodies involving discussions at a wider and more strategic level. Both the reporting, and the planning and risk assessment which underpins it, will require more audit time, delivered through a richer skill mix than in previous years.

The Code can be accessed here:

[https://www.nao.org.uk/code-audit-practice/wp-content/uploads/sites/29/2020/01/Code\\_of\\_audit\\_practice\\_2020.pdf](https://www.nao.org.uk/code-audit-practice/wp-content/uploads/sites/29/2020/01/Code_of_audit_practice_2020.pdf)

# Local government reorganisation in two-tier shire counties – County Councils’ Network

The County Councils’ Network (CCN) has published new independent evidence on the implications of local government reorganisation in two-tier shire counties ahead of the publication of the government’s ‘devolution and local recovery’ white paper.

The report identifies considerations relating to:

- the costs associated with disaggregation;
- what this might mean in terms of risk and resilience of service provision;
- how service performance might be impacted;
- what it could mean for the place agenda; and
- issues arising from the response to Covid-19.

The report also sets out the financial implications of four unitary scenarios:

- Establishing one unitary authority in every two-tier area in England.
- Establishing two new unitary authorities in every two-tier area in England.
- Establishing three new unitary authorities in every two-tier area in England.
- Establishing two new unitary authorities and a children’s trust in every two-tier area in England.

CNN note “With councils in shire counties facing billions in rising costs for care services, alongside financial deficits caused by the Coronavirus pandemic, the study from PricewaterhouseCoopers (PwC) shows merging district and county councils in each area into a single unitary council could save £2.94bn over five years nationally.”

CNN go on to comment “The report concludes a single unitary in each area would reduce complexity and give communities a single unified voice to government. It would provide a clear point of contact for residents, businesses and a platform to ‘maximise’ the benefits of strategic economic growth and housing policy; integral to the ‘levelling-up’ agenda and securing devolution.

However, the report shows replacing county and districts with two unitary authorities in each area would reduce the financial benefit by two-thirds to £1bn over five years, with three unitary authorities delivering a net loss of £340m over the same period. A fourth scenario of a two-unitary and children’s trust model in each county would deliver a net five year saving of £269m.

Alongside a minimum £1.9bn in additional costs from splitting county council services, the report outlines the establishment of multiple unitary authorities in each area creates the risk of disruption to the safeguarding of vulnerable children, while ‘instability’ in care markets could impact on the quality and availability of support packages and care home placements.”

The full report can be obtained from the County Councils’ Network website:

<https://www.countycouncilsnetwork.org.uk/new-analysis-reveals-that-single-unitary-councils-could-deliver-3bn-saving-over-five-years-and-maximise-the-benefits-of-economic-growth-and-housing-policy/>

# Revised auditing standard: Auditing Accounting Estimates and Related Disclosures

In the period December 2018 to January 2020 the Financial Reporting Council issued a number of updated International Auditing Standards (ISAs (UK)) which are effective for audits of financial statements for periods beginning on or after 15 December 2019. ISA (UK) 540 (revised): *Auditing Accounting Estimates and Related Disclosures* includes significant enhancements in respect of the audit risk assessment process for accounting estimates.

## Introduction

Under ISA (UK) 540 (Revised December 2018) auditors are required to understand and assess an entity's internal controls over accounting estimates, including:

- The nature and extent of oversight and governance over management's financial reporting process relevant to accounting estimates;
- How management identifies the need for and applies specialised skills or knowledge related to accounting estimates;
- How the entity's risk management process identifies and addresses risks relating to accounting estimates;
- The entity's information system as it relates to accounting estimates;
- The entity's control activities in relation to accounting estimates; and
- How management reviews the outcomes of previous accounting estimates.

As part of this process auditors also need to obtain an understanding of the role of those charged with governance, which is particularly important where the estimates have high estimation uncertainty, or require significant judgement.

Specifically do Audit Panel members:

- Understand the characteristics of the methods and models used to make the accounting estimates and the risks related to them;
- Oversee management's process for making accounting estimates, including the use of models, and the monitoring activities undertaken by management; and
- Evaluate how management made the accounting estimates?

## Additional information that will be required for our March 2021 audits

To ensure our compliance with this revised auditing standard, we will be requesting further information from management and those charged with governance during our audit for the year ended 31 March 2021 in all areas summarised above for all material accounting estimates that are included in the financial statements.

Based on our knowledge of the Council we have identified the following material accounting estimates for which this is likely to apply:

- Valuations of land and buildings, council dwellings and investment properties
- Depreciation
- Year end provisions and accruals, including the prescribing accrual
- Credit loss and impairment allowances including loans to your subsidiaries
- Valuation of defined benefit net pension fund liabilities
- Fair value estimates
- Valuation of level 2 and level 3 investments

## The Councils Information systems

In respect of the Council's information systems we are required to consider how management identifies the methods, assumptions and source data used for each material accounting estimate and the need for any changes to these. This includes how management selects, or designs, the methods, assumptions and data to be used and applies the methods used in the valuations.

When the models used include increased complexity or subjectivity, as is the case for many valuation models, auditors need to understand and assess the controls in place over the models and the data included therein. Where adequate controls are not in place we may need to report this as a significant control deficiency and this could affect the amount of detailed substantive testing required during the audit.

If management has changed the method for making an accounting estimate we will need to fully understand management's rationale for this change. Any unexpected changes are likely to raise the audit risk profile of this accounting estimate and may result in the need for additional audit procedures.

The Council's processes around accounting estimation is included under item 6 on the agenda and acknowledges that the Council providing Members with the information they need to understand how we deal with accounting estimation in the accounts.

We are aware that the Council uses management experts in deriving some of its more complex estimates, e.g. asset valuations and pensions liabilities. However, it is important to note that the use of management experts does not diminish the responsibilities of management and those charged with governance to ensure that::

- All accounting estimates and related disclosures included in the financial statements have been prepared in accordance with the requirements of the financial reporting framework, and are materially accurate;
- There are adequate controls in place at the Council (and where applicable its service provider or management expert) over the models, assumptions and source data used in the preparation of accounting estimates.

### Estimation uncertainty

Under ISA (UK) 540 (Revised December 2018) we are required to consider the following:

- How management understands the degree of estimation uncertainty related to each accounting estimate; and
- How management address this estimation uncertainty when selecting their point estimate.

For example, how management identified and considered alternative, methods, assumptions or source data that would be equally valid under the financial reporting framework, and why these alternatives were rejected in favour of the point estimate used.

The revised standard includes increased emphasis on the importance of the financial statement disclosures. Under ISA (UK) 540 (Revised December 2018), auditors are required to assess whether both the accounting estimates themselves and the related disclosures are reasonable.

Where there is a material uncertainty, that is where there is a significant risk of a material change to the estimated carrying value of an asset or liability within the next year, there needs to be additional disclosures. Note that not all material estimates will have a material uncertainty and it is also possible that an estimate that is not material could have a risk of material uncertainty.

Where there is material estimation uncertainty, we would expect the financial statement disclosures to include:

- What the assumptions and uncertainties are;
- How sensitive the assets and liabilities are to those assumptions, and why;
- The expected resolution of the uncertainty and the range of reasonably possible outcomes for the next financial year; and
- An explanation of any changes made to past assumptions if the uncertainty is unresolved.

### How can you help

As part of our planning risk assessment procedures we routinely make a number of enquiries of management and those charged with governance, which include general enquiries, fraud risk assessment questions, going concern considerations etc. Responses to these enquiries are completed by management and confirmed by those charged with governance at an Audit Panel meeting. For our 2020/21 audit we will be making additional enquiries on your accounting estimates in a similar way (which will cover the areas highlighted above). We would appreciate a prompt response to these enquiries in due course.

### Further information

Further details on the requirements of ISA (UK) 540 (Revised December 2018) can be found in the auditing standard on the Financial Reporting Council's website:

[https://www.frc.org.uk/getattachment/0fa69c03-49ec-49ae-a8c9-cc7a2b65382a/ISA-\(UK\)-540\\_Revised-December-2018\\_final.pdf](https://www.frc.org.uk/getattachment/0fa69c03-49ec-49ae-a8c9-cc7a2b65382a/ISA-(UK)-540_Revised-December-2018_final.pdf)
