

Council Meeting – 28 FEBRUARY 2024

Public Speakers

No.	Speaker's Name	Details provided of subject matter	Lead Member and Opposition respondent	In person or Mayor to read
1	Kieran Terry	Antisocial behaviour continues to be a major problem for residents in Earls Court, and it is great to see the Council leadership stepping up and leading the way on the new PSPO. Can you please provide an update on progress for this and a timeline for when Earls Court residents can start to see this being rolled out in the area?	Councillor Sarah Addenbrooke Councillor Linda Wade	In person
2	Leearna Oliffe	I would like to ask the councillors about what mental health support will they put in place for those suffering both loss and trauma on account of the events unfolding in the Middle East? Specifically as we are the 2nd largest Arab Muslim borough in London, but also for the many other residents here struggling to deal with the horrors unfolding, whilst they themselves are left picking up their Muslim brothers and sisters lost in anguish. Support was put in place after Grenfell. Support was put in place for Ukraine. Where is the Support for Palestinians, Lebanese, Yemeni's and other affected people? Is their trauma and grief not worthy of support from RBKC?	Councillor Kim Taylor-Smith Councillor Portia Thaxter	In person
3	Mohammed Aboukhachab	Time after time we have heard you speak about Palestinians in a homogenous nature so I would like to ask what efforts will the Council's executive take to resolve the current lack of dialogue, understanding, intricacies and acknowledgement of the Palestinian community in the borough?	Councillor Kim Taylor-Smith Councillor Kasim Ali	Mayor to read
