Subject: Application to grant a premises licence: 138 Brompton Road

Licensing Observations from Planning Enforcement – Application to grant a premises licence: 138 Brompton Road, London, SW3 1HY

I have reviewed the planning history for these premises, and I have read and understood the documents submitted by the licensee for their licensing application. I have found no conflict between the planning history for the site and what the licensee now proposes.

For the benefit of your records and ours, the relevant planning history for the premises, including relevant planning permissions, conditions, and refusals, is as follows:

No objections.

I confirm what that the licensee is proposing is in accordance with the planning history of the site set out above. If the licensee does not operate the premises in a manner which is consistent with the planning restrictions for the site, then a breach of planning control may occur and planning enforcement action may be taken to ensure the premises are operated in compliance with planning requirements.

The views expressed above do not amount to a determination of the proposal under the Town and Country Planning Acts. Any planning recommendation would be made in the light of technical assessment justified in terms of planning policy and taking into account any material planning considerations.
