

# Bi-Borough Inclusion Strategy -Appendix B

## Bi-Borough Exclusion Data

Chart 1: Fixed term and permanent exclusions from Bi-borough primary schools

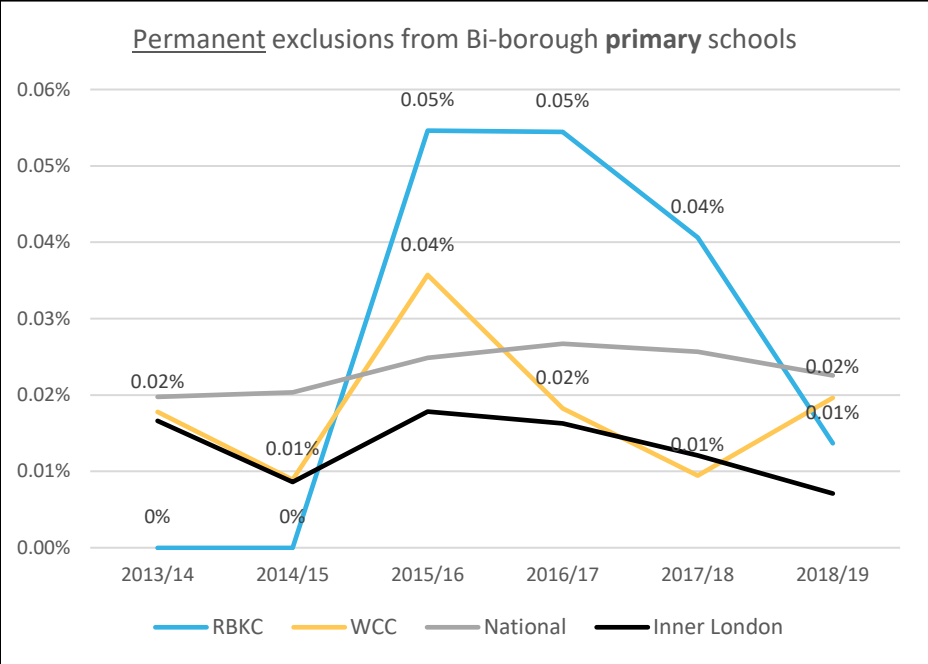

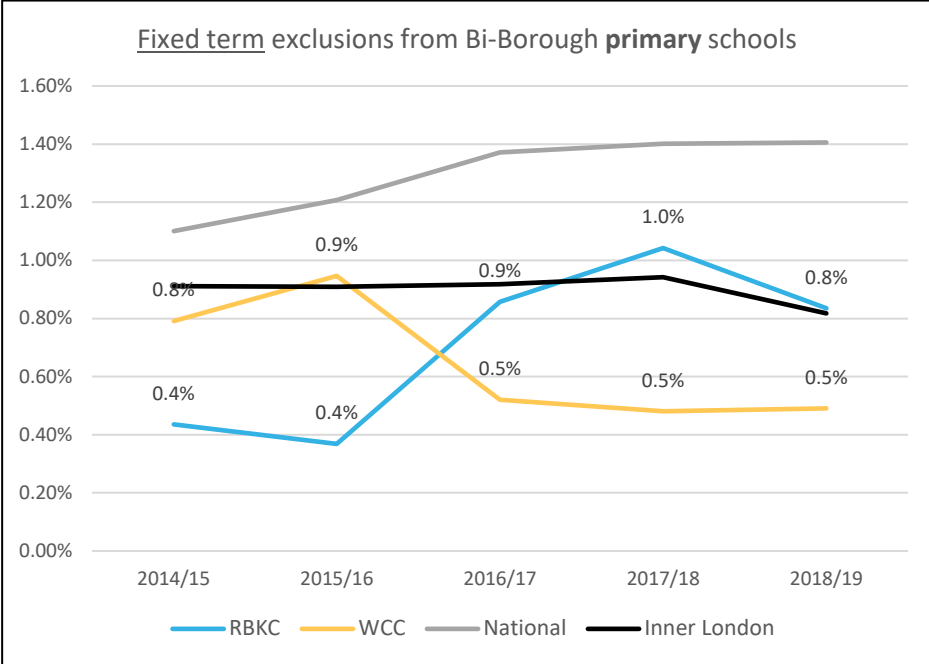

Chart 2: Breakdown of placement type in Bi-borough Alternative Provision

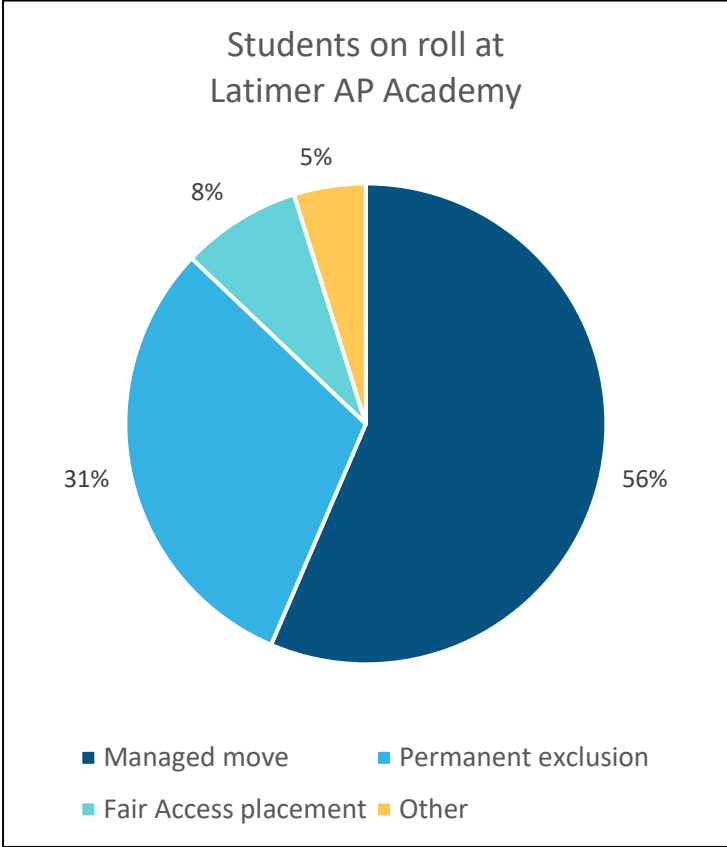

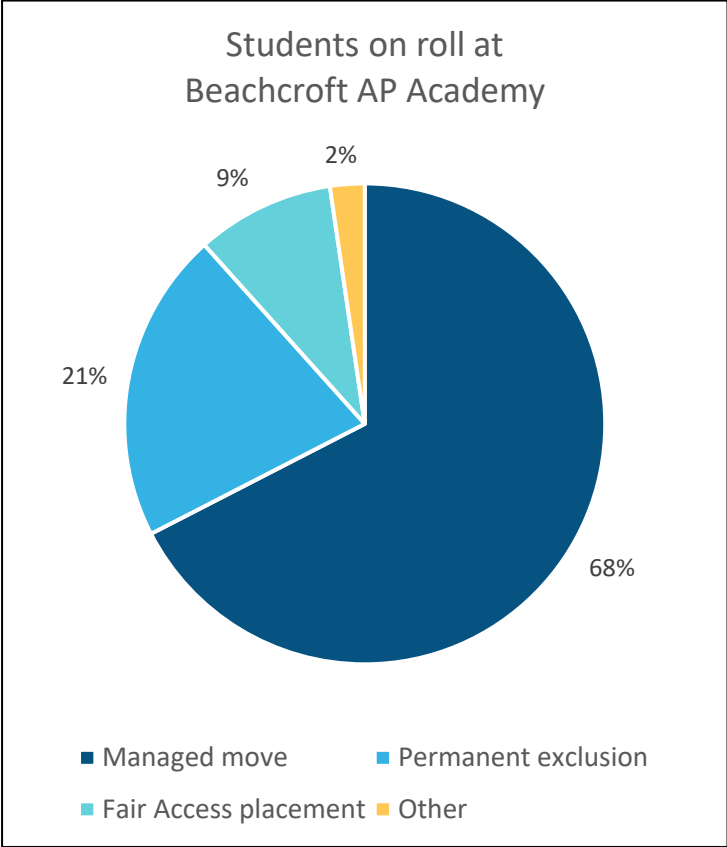

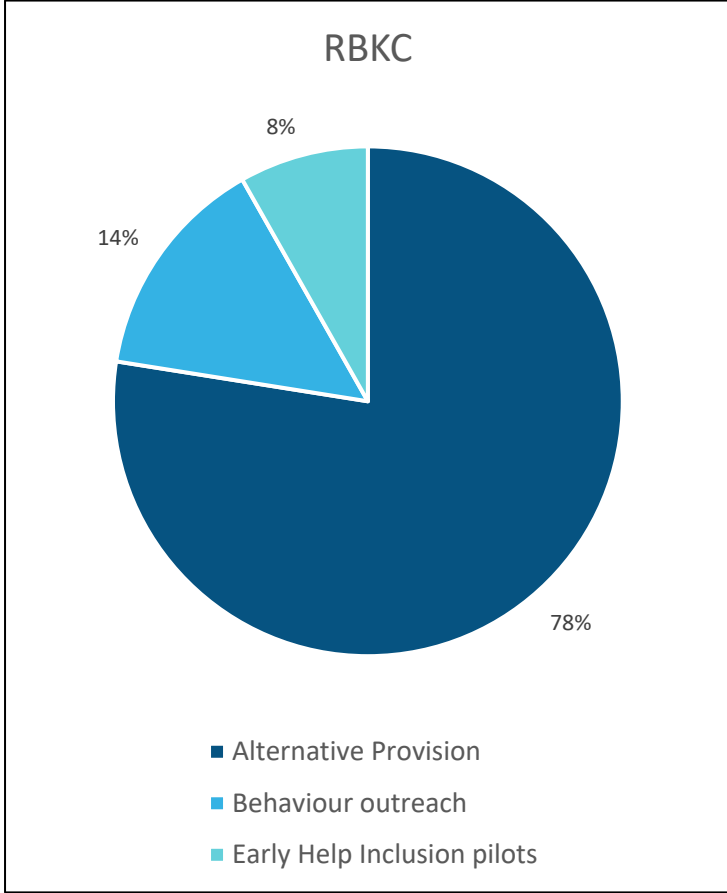

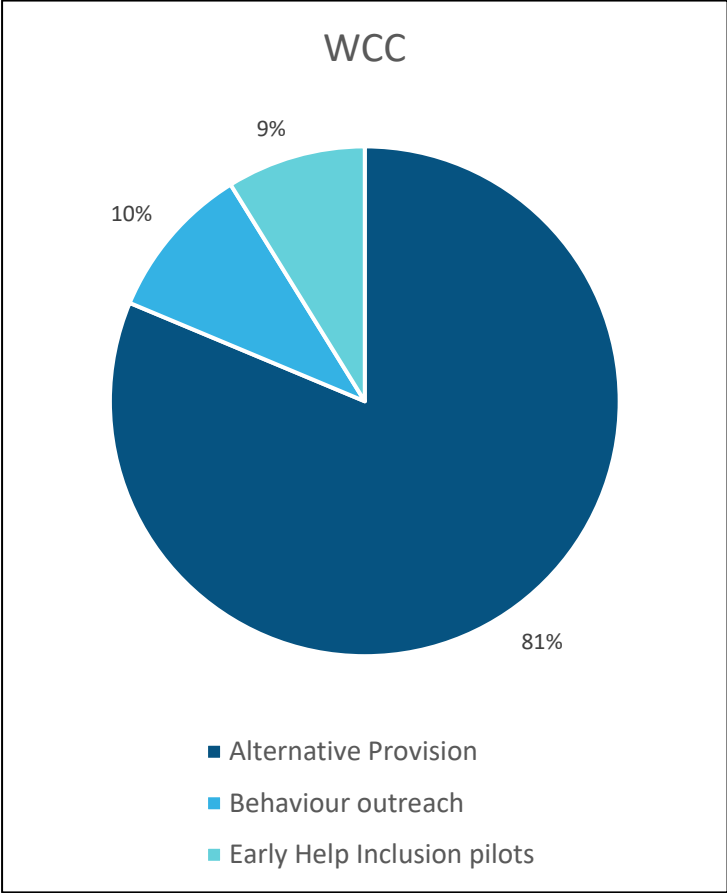

Chart 3: Financial investment into early interventions and full-time education for excluded cohort

# Chart 4: Fixed and permanent exclusions per Bi-borough school over the last three years

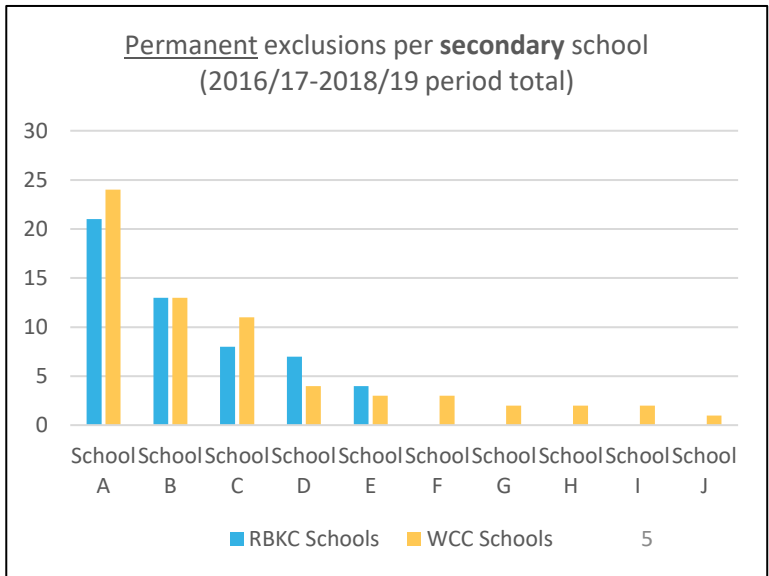

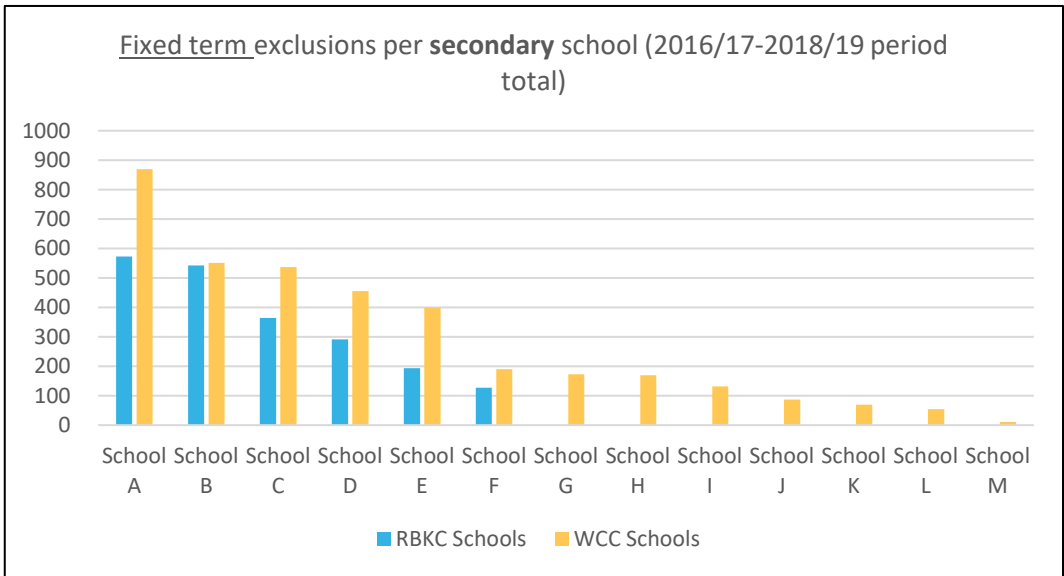

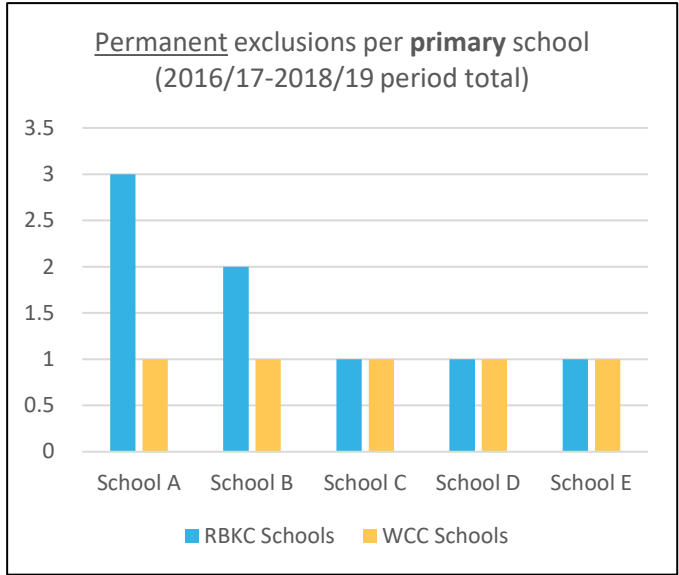

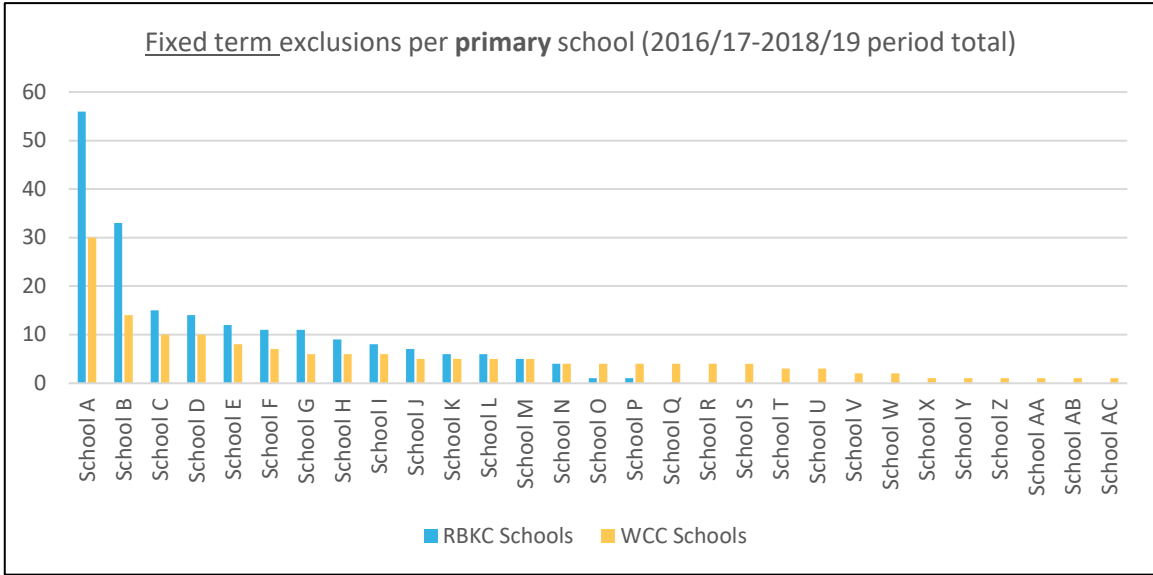

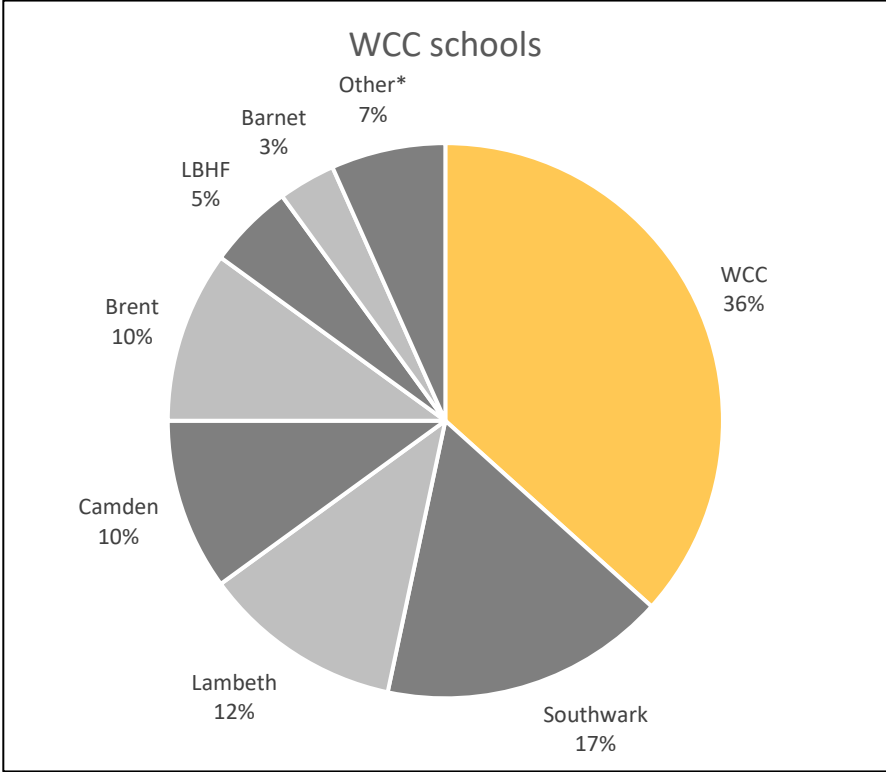

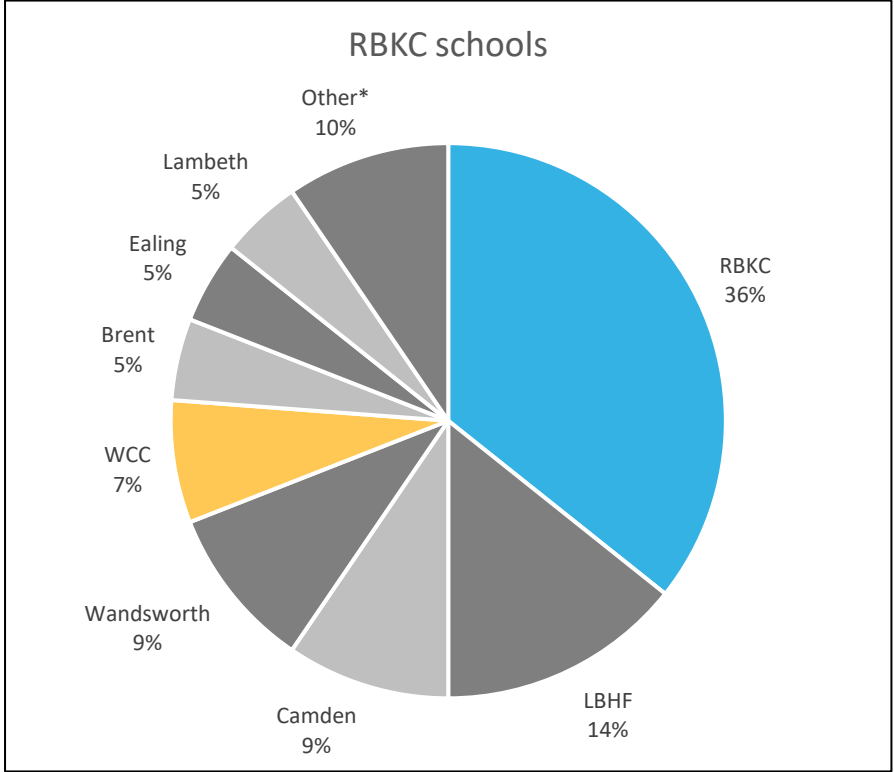

Chart 5: Borough of residency for children and young people permanently excluded from Bi-borough schools between 2017/18 and 2018/19

\*Croyden, Tower Hamlets, Waltham Forest and Wandsworth each had only 1 child excluded in this two-year period so have been combined under 'other'

\*Croyden, Harrow and Hillingdon each had only 1 child excluded in this two-year period so have been combined under 'other'

Chart 6: Rates of fixed term and permanent exclusion by school year

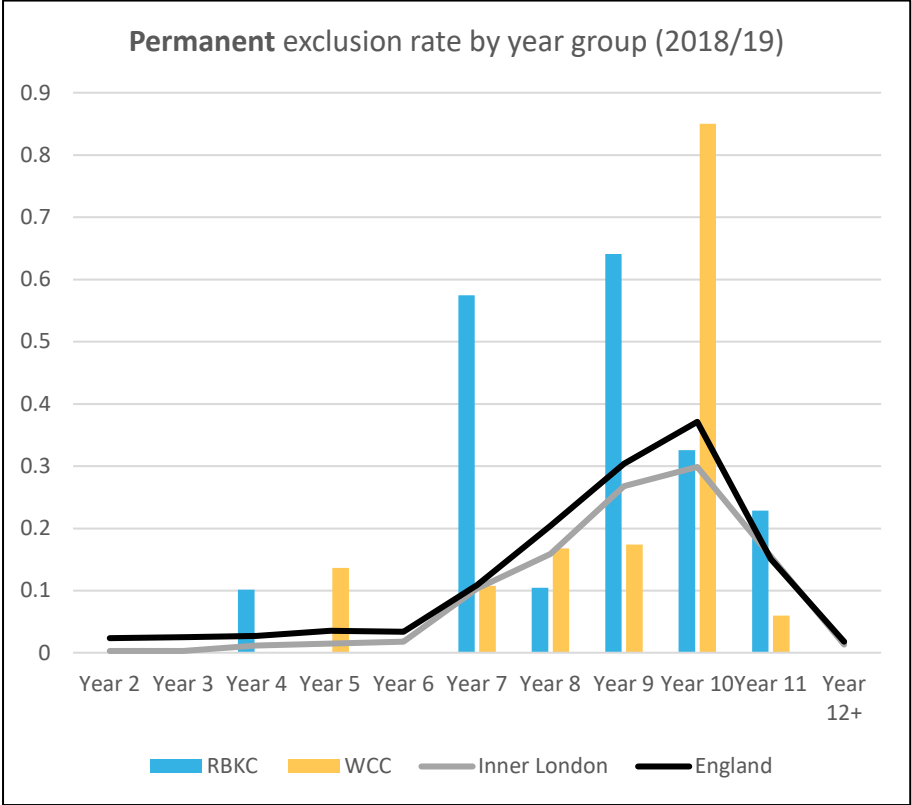

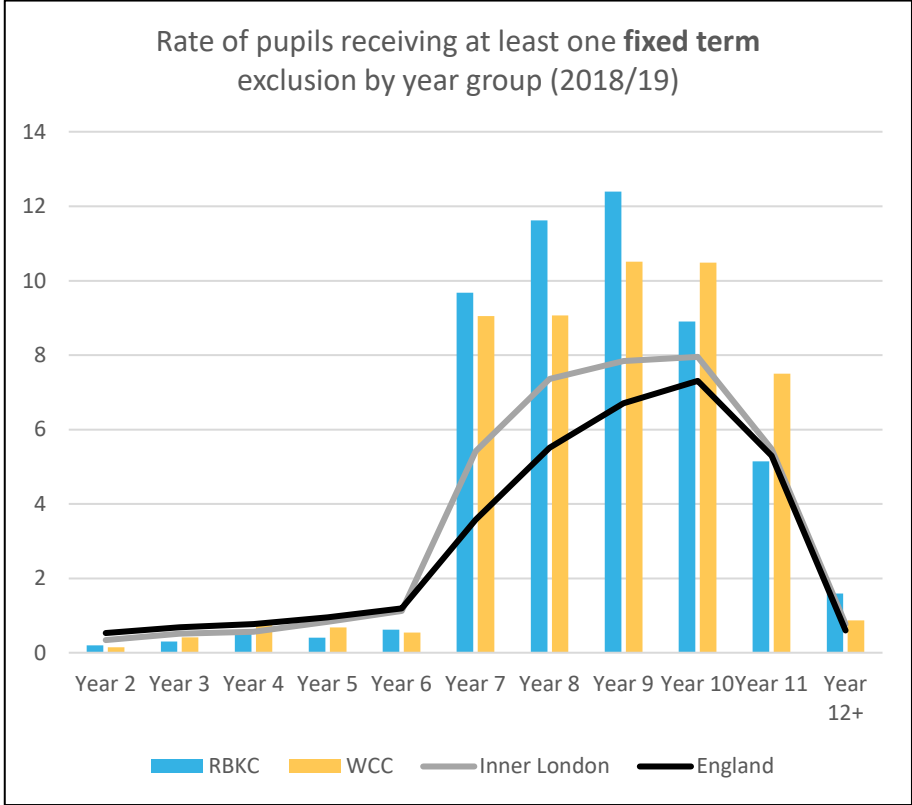

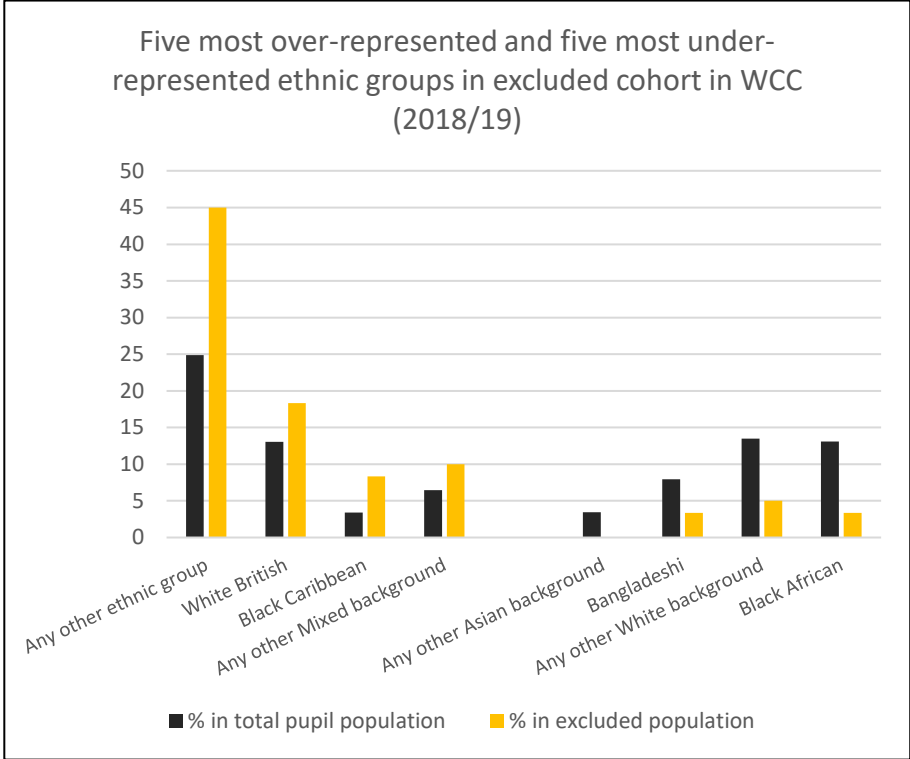

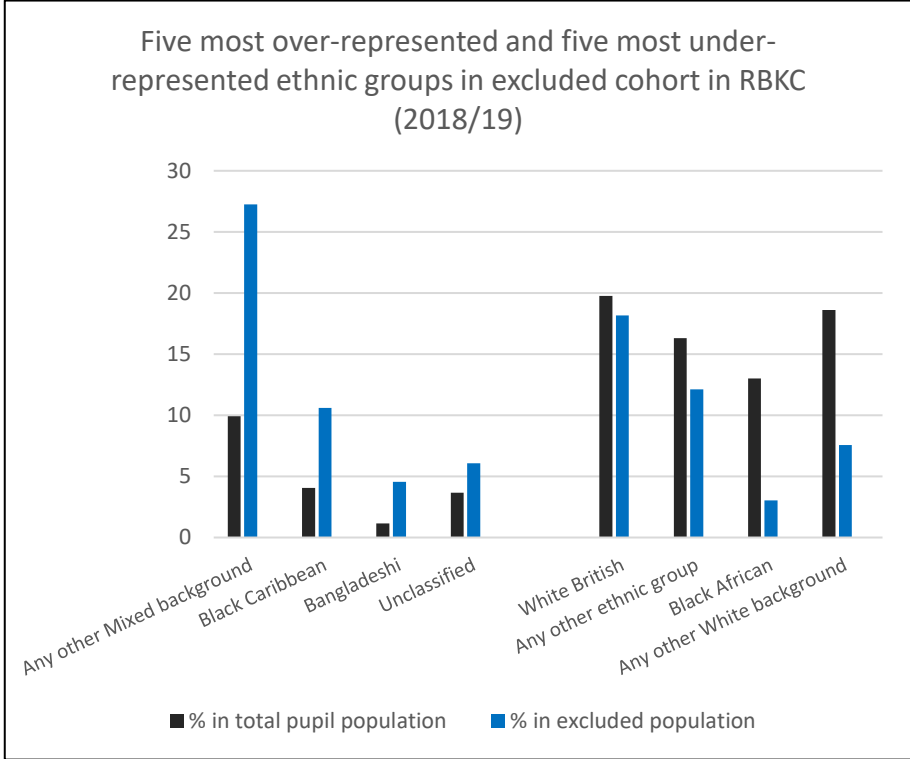

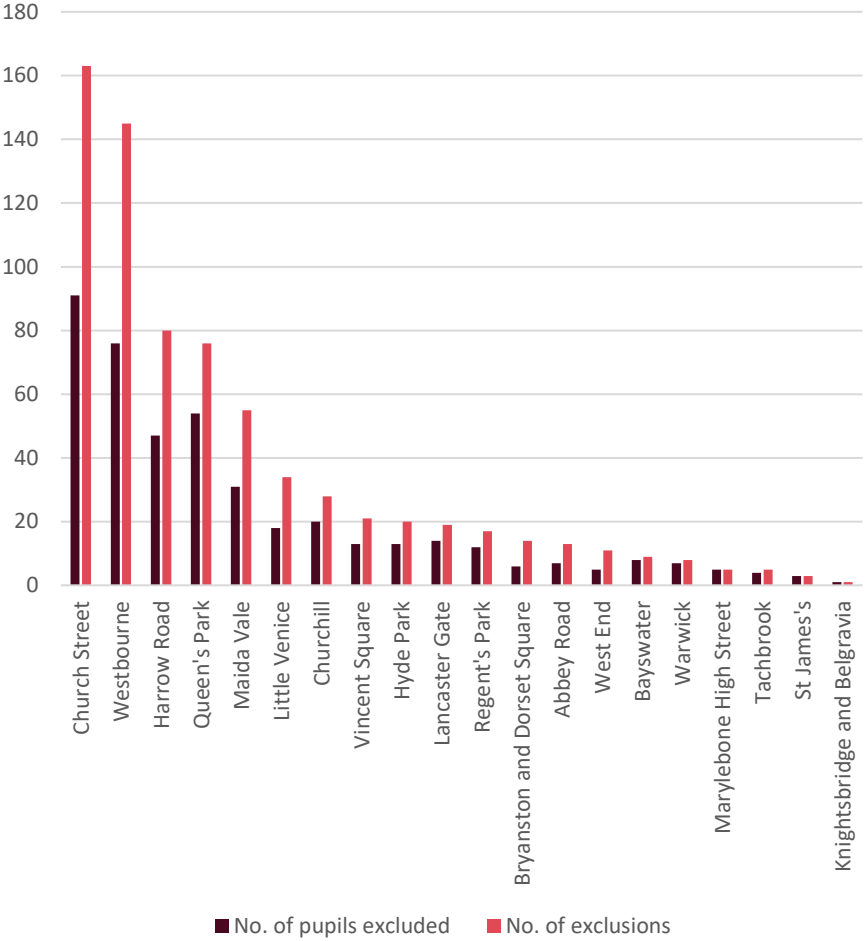

Chart 7: Ethnicity of students in excluded population compared to total pupil population across the Bi-Borough (2018/19)

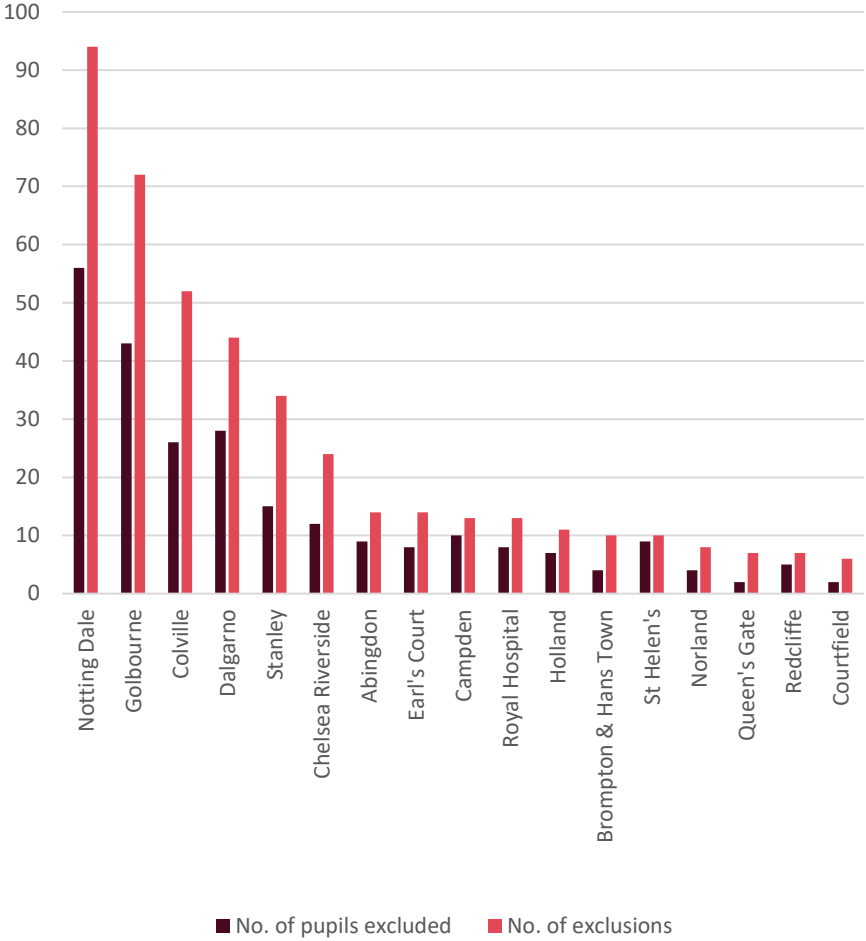

# Chart 8: Rates of exclusion by Local Authority Ward

## Fixed term exclusions in WCC by ward (2018/19)

## Fixed term exclusions in RBKC by ward (2018/19)

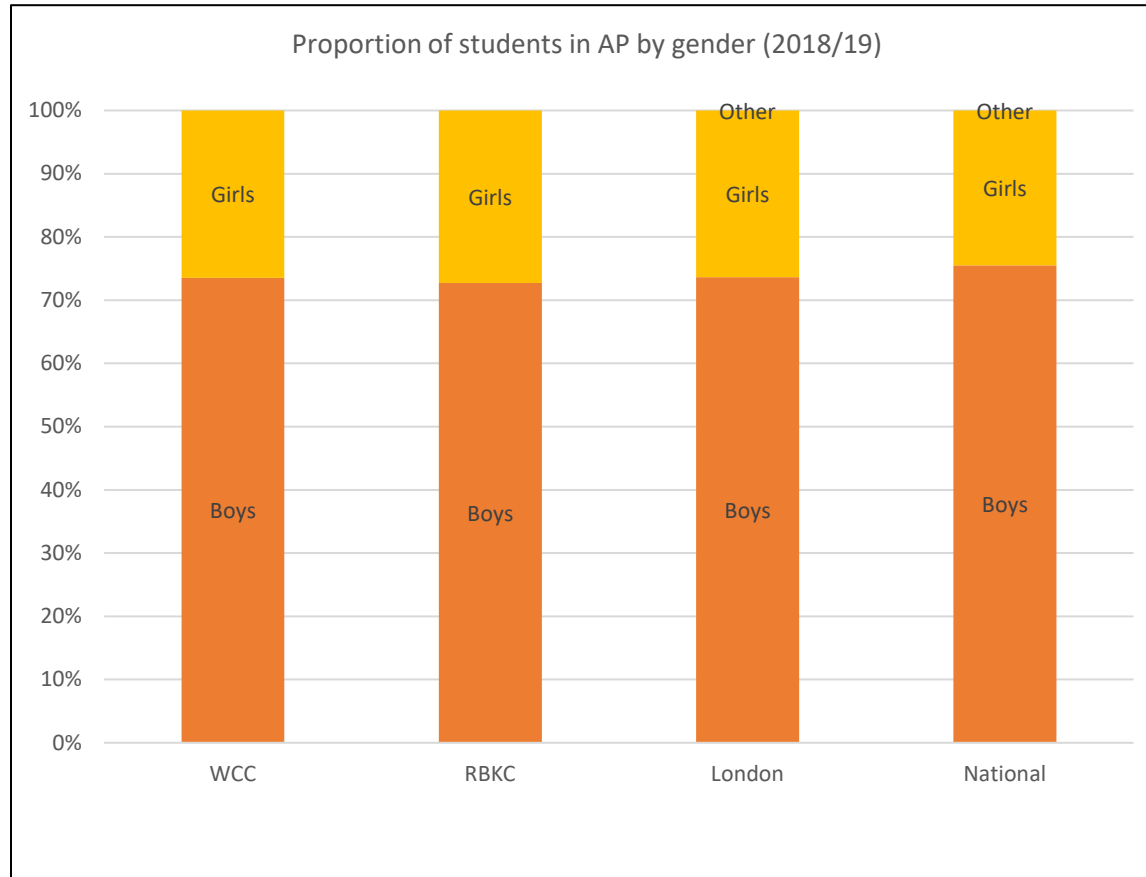

# Additional charts

(not referenced in main text of the Bi-Borough Inclusion Strategy)

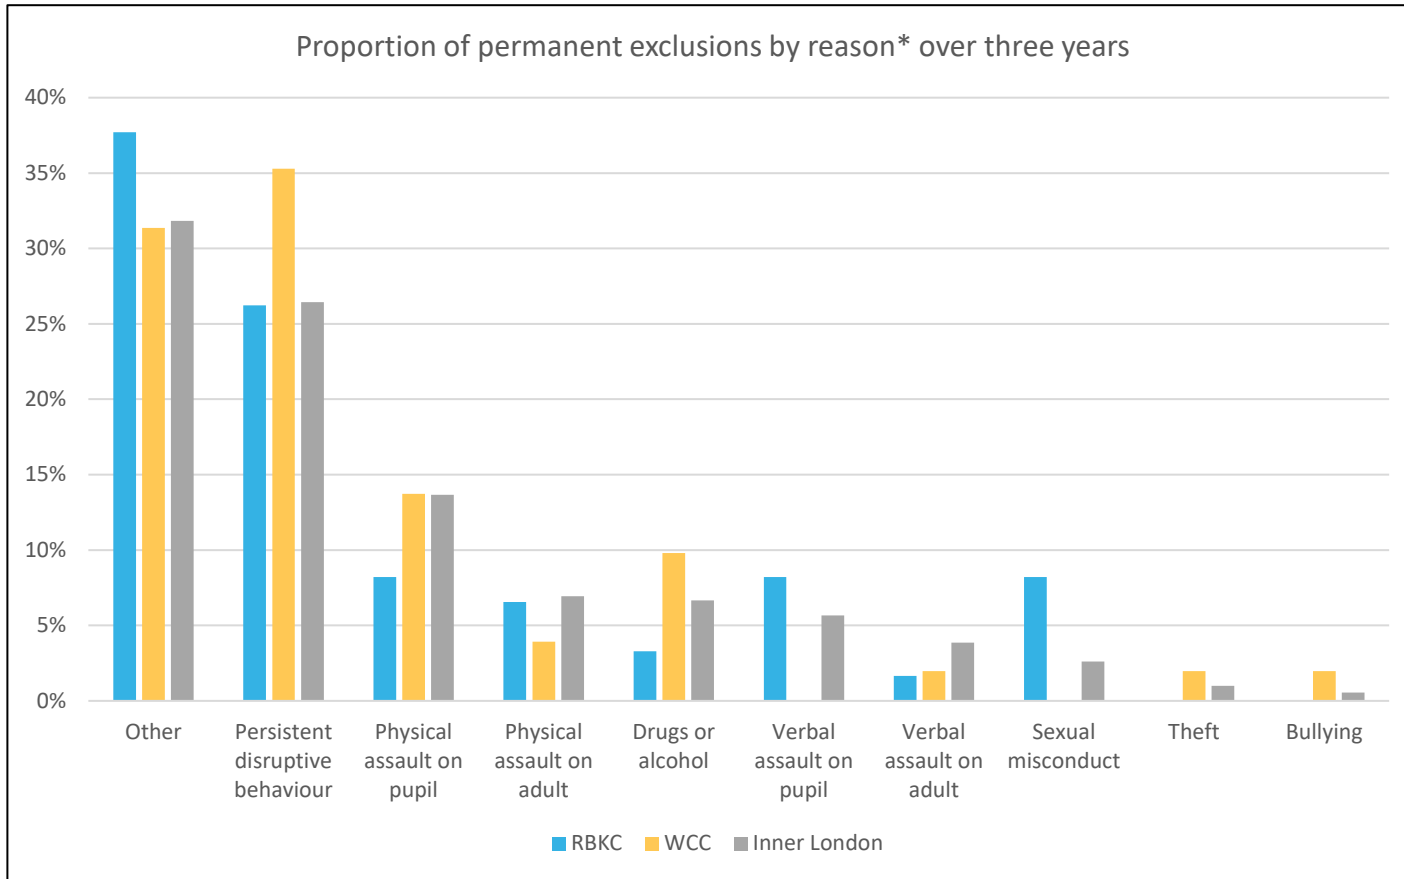

# The proportion of students in AP by gender

Whilst boys are overrepresented in the local excluded cohort (over 70%) this is replicated across London as well as Nationally.

# Permanent exclusions by reason for exclusion (2016/17-2018/19)

The most commonly reported reason for permanent exclusion in RBKC is 'other' whilst the most commonly recorded reason in WCC is 'persistent disruptive behaviour', in each case this is above the Inner London rate.

\*There were no permanent exclusions from Kensington and Chelsea or Westminster for 'Damage to property' or 'Racist abuse' during this period so these reasons for exclusion have been excluded from this chart
