ISSUE NUMBER: 03
DATE: June 2010

REF.	KEY TASK	LEAD OFFICERS	LEAD CM	OUTCOMES BY 31/3/10	BENE-FITS	JUL	NOV	MAR	PROGRESS COMMENTARY	
RBSC TRANSFORMATION PROGRAMMES										
1	Deliver the next phase of the Here to Help Programme	Nicholas Holgate	Cllr Ahern	Several examples of lower cost and higher customer satisfaction.	COST	H	PROGRESS			The programme has encountered a number of technical issues which has delayed delivery of the on-line special collection (TBFTB) project. However the resolution of these issues is imminent. Online residents permits are operational and development work is underway in preparation for phase 2. Several other projects are reaching delivery stage and work has started to scope the next phase of the programme based on IT led service improvement projects which will need to deliver tangible savings.

2	Implement the Space programme	Derek Myers	Cllr Ahern	Design completed following a major consultation. Tendering process finalised.	COST	H	PROGRESS			The Space programme is progressing well and on budget. Architects have completed the initial designs and are now working to develop these designs into detailed proposals. Staff will be consulted through workshops and other targeted events. The flexible ICT solution now includes the provision of laptop PCs for staff using the Town Hall. The works will now also include new glazing and better insulation to the refurbished staff office areas. Programme benefits are improved by both these initiatives. Concerns remain about project resources and a proposal to address this is being prepared for the programme board.

3	Establish the Realising Potential programme	Anne Marie Carrie	Cllr Ritchie	Programme to realise the full potential of children families and staff defined and underway.	COST	L	PROGRESS			The development of the business case, monitored fortnightly by the FCS senior team, was published in November '09, and extensively reviewed between November '09 and January '10. ED FCS reviewed the conclusions with the RBKC Management Board on December 16th, including the goal to reduce operating costs in FCS by an additional 10% over the next five years. The current objective is to agree the team structure and mobilise the Realising Potential programme team by April '10.

4	Deliver Personalisation of Adult Social Care	Jean Daintith	Cllr Mills	Projects delivering against milestones to reach targets for April 2011.	COST	M	PROGRESS			The programme is on track to deliver on all its milestones. A Cabinet working party, programme board and officer group are driving the change. A Gateway review will be undertaken in March 2010.

					QofL	H				
5	Finalise Housing Stock Options analysis	Peter Lerner	Cllr Mills Cllr Moylan	Clear options developed and presented for Member decisions.	COST	H	PROGRESS			The review's decision on the preferred option was approved by Cabinet in November 2009. The programme is now focussed on delivering that solution through a series of specific projects. It was agreed that the Council needs to investigate how to avoid a deficit on its HRA. In addition, two areas of development have been identified, which are being progressed and will involve resident collaboration. The Council will carry forward current governance arrangements for the programme of delivery of the approved decision. Delivery of the next phase is faced with complex challenges and constraints, both in the finance and regeneration workstreams, such that to forecast a problem free future (within 10% tolerance) could be imprudent at this stage.

6	Implement the Climate Change programme	Tot Brill	Cllr Paget-Brown	Carbon reduction programme targets delivered. Climate Change Strategy reflected in key documents (LDF Core Strategy, Community Strategy, etc.).	COST	H	PROGRESS			Some projects, such as those that are part of the Carbon Management Plan, are underway, with six out of seven either complete or in progress for 2009/10. Other projects, planned for further consideration or implementation next year or beyond, are being progressed and defined. On two projects (CHP Chelsea Town Hall – complete, and voltage optimisation at corporate buildings), revised estimates of performance indicate increased carbon tonnage reduction over initial estimates. An initial risk log is in production.

RBSC CHANGE PROGRAMMES										
7	Implement the Environment Strategy	Tot Brill	Cllr Paget-Brown	Measurable progress in delivering the action plan	COST	H	PROGRESS			Progress on Green Partners Group to deliver the environment and transport chapters of the Community Strategy continues. Development of a sustainable procurement policy and some action plans relating to planning work have yet to be completed e.g. drafting a green development guide. Carbon Assessment and Reduction in Regeneration Area has not been advanced. Evaluation of the current strategy and on the feasibility of a new Environment Strategy is to be undertaken during 2010/11.

8	Progress the Building Schools for the Future Programme	Anne Marie Carrie	Cllr Husband	Strategy for Change 2 and Outline Business Case for BSF submitted; detailed designs for the schools being developed.	COST	L	PROGRESS			The BSF timetable is tightly controlled by central government through Partnerships for Schools (Pfs). Our Strategy for Change, part 1 and part 2, have both been approved without condition. We have submitted the Outline Business Case and are waiting approval from Pfs. We have begun developing the procurement documentation which will be used to procure an ICT managed service and a design and build contractor as prescribed by the national programme.

9	Progress the Primary Capital Programme	Anne Marie Carrie	Cllr Husband	Feasibility study undertaken and preferred option agreed for the Middle Row and St Mary's redevelopment; detailed design for the scheme being developed.	COST	L	PROGRESS			A number of options have been developed based on our original budget. The budget assumed we would have four years of PCP funding available to the project. However, given the uncertainty of future public funding for the PCP, we are now assuming we will receive no further central government funding and are investigating options to generate a capital receipt on the site to close the funding gap.

11	Establish a new secondary school in Chelsea	Anne Marie Carrie	Cllr Husband	The Chelsea Academy opened in temporary accommodation in Sep 2009. The construction of the new Academy on track for completion in 2010 (to open in Sep).	COST	L	PROGRESS			The construction work is proceeding in accordance with the programme. Further planning conditions have been discharged and arrangements are in place to discharge the remainder. The school is due to transfer to the new building in September 2010 and an opening event is being planned.

12	Consider options for new secondary provision in the north of the borough	Anne Marie Carrie	Cllr Husband	The OSC has considered options and there is a firm decision on the type, location and size of the new school.	COST	L	PROGRESS			The selection of the lead sponsor for the academy is currently underway and is due for completion before the end of February. The Statement of Intent will be submitted to Ministers by the Office of the Schools Commissioner in March. A Cabinet paper will be tabled in March with the options for the development of the academy building on the proposed site, as identified in the LDF publication and a new Sports Centre to replace the existing Kensington Leisure Centre.

13	Deliver the Library transformation programme	Anne Marie Carrie	Cllr Husband	Blueprint for the transformed library service being implemented with first phase achieved. Firm decision on the direction of travel of the Central Library refurbishment taken and being progressed.	COST	M	PROGRESS			The programme was subject to a Gateway review which gave it amber/green status (2nd highest level) and found very good progress. Uncertainty over Central Library refurbishment led to red traffic lights in the past. The current assessment is based on a set of ambitions which does not include currently pursuing the refurbishment of the Central Library, which is now a capital programme pipeline project. Interim funds are being sought to enable self service installation and to address some urgent infrastructure problems. All other projects are delivering benefits. Self service is up and running at Chelsea Library with work at others on schedule.

RBCS IMPROVEMENT PROGRAMMES										
14	Less recorded crime and reduced fear of crime	Derek Myers	Cllr Lightfoot	Community Strategy targets to reduce crime and assure the public, reducing the fear of crime, achieved.	COST	L	PROGRESS			Total recorded crime fell by 6.4% between 2007/08 and 2008/09. The trend continues and there has been a -6.8% reduction so far this year compared to the same period last year (January to December). The very latest Residents Panel survey on community safety (July 2009) provides evidence to show that residents have a reduced fear of crime compared to last year. In particular, 69% of respondents felt very or fairly safe in their local area during darkness compared to 59% last year.

16	Continue to improve our streetscape	Tot Brill	Cllr Paget-Brown	Colville and Pembridge Ward reviews completed. Further improvements developed and implemented subject to due diligence.	COST	L	PROGRESS			Colville and Pembridge Wards are substantially complete. Following consultation, a preferred option was selected for Tavistock Square. We will develop design during 2010/11 and delivery during 2011/12. Consultation with ward councillors for the King's Road scheme was completed in October 2009 with the proposals programmed for implementation during 2010/11. The next wards chosen to be reviewed in 2010/11 are Norland and Notting Barns. Prospects are shown as amber as the Norland and Notting Barns ward reviews may slip due to resource constraints.

17	Revamp and modernise the Exhibition Road and South Kensington streetscape	Tot Brill	Cllr Cockell	Switch over from one- to two-way traffic system around South Kensington Station by Nov 09. Work on streetscape improvements of Exhibition Road started in summer 09.	COST	L	PROGRESS			The first stage of the project, unravelling the one-way system, was completed in December on time and budget. A preconstruction contract was let to Balfour Beatty in summer 2009, resulting in refined target cost for the streetscape scheme. Balfour Beatty was appointed for stage two in February; work is programmed for completion in late 2011. Half of the road lies in Westminster City Council and will affect decision-making as design issues need agreement by WCC. There is a legal challenge to the Council's decision to omit kerbs.

19	Reach an agreement on Brompton Cemetery and draw up an improvement plan	Tot Brill	Cllr Paget-Brown	Handover of cemetery complete. Programme of improvement designed.	COST	L	PROGRESS			The DCMS Minister has agreed in principle to transfer the Cemetery to the Council's ownership, but has declined to make any revenue contribution beyond 2010/11. This means a loss of £130,000 pa by comparison with what the Council expected. The Council will take stock of the new position before proceeding. It now appears unlikely that the transaction will be completed during this Parliament.

LEADING THE COMMUNITY										
28	Deliver a new Local Development Framework	Peter Lerner	Cllr Moylan	Core Strategy submitted to central Government in March 2010.	COST	L	PROGRESS			The timetable to which the LDF is working is that set out in the Local Development Scheme (LDS), submitted to and approved by the Government in December 2008. This identified that the Document would be ready to be 'published' for its final consultation in the Autumn of 2009, and submitted to Government for examination by March 2010. This is on track, with a report to Council in March 2010.

29	Establish new and effective relationships with NHS Kensington and Chelsea (the PCT)	Derek Myers	Cllr Cockell	Joint Commissioning Board work programme developed; contributions made by NHSKC to key issues for Cabinet. Joint commissioning work evidenced.	COST	M	PROGRESS			New high level meeting arrangements (including CEOs) have been established. These are still bedding in. Existing joint commissioning arrangements continue and some new developments are planned. A small pilot on co-location of some commissioning staff has started. Joint strategies have been agreed for dementia services, carers and for intermediate care case management. Good progress has been made on implementing these. The PALS service has been incorporated in RBC Customer Services.

31	Review and maintain high standard of safeguarding children	Anne Marie Carrie	Cllr Ritchie	High safeguarding standards for children and effective partnerships maintained. Validated by good results in new Ofsted safeguarding inspections.	COST	L	PROGRESS			Ofsted have confirmed safeguarding standards at both Children's Homes as outstanding. The Independent Chairman of the LSCB is in post. The LSCB is internally reviewing a case to provide opportunities for learning. Internal Audit of frontline safeguarding services confirms substantial assurance of systems. An in- year unannounced inspection of this area by Ofsted is awaited. After national attention on safeguarding, the number of care proceedings in year has risen slightly, whilst children with protection plans has decreased from a high of 104 to 85 in Quarter 3 of this year.

44	Initiate the next round of ward initiatives	Derek Myers	Cllr Cockell	A new round of ward initiatives established and operating.	COST	L	PROGRESS			Colville and Golborne initiatives are undertaking a further small grants round. Notting Barns councillors are holding events to determine priorities for activity and spending. St Charles Ward Initiative includes events to promote volunteering. Queen's Gate initiative now anticipates all spend occurring in 2011/12. As with Round 1 initiatives, the amount of funding drawn down by the initiatives has been low during their first year.

45	The Council's response to flooding (including working with Thames Water)	Tot Brill	Cllr Paget-Brown	Council understands its role in relation to flooding events and is prepared for them. Ofwat agreement to Thames Water's proposals for Counters Creek.	COST	L	PROGRESS			Thames Water's (TW) flood relief scheme in the Norland Square area is complete, providing additional protection to 120 properties. TW's proposals for a new storm relief tunnel were approved by OFWAT in November. However, there will be several years of planning, design and ground investigations before total costs are finalised, with construction programmed in 2015. TW will implement more local improvement projects and will contact affected residents from April. Another public meeting is planned for June.
