

APPENDIX 4

Environment Select Committee		
Recommendation	Decision maker	Status
The SC made a recommendation to Johnny Thalassites and the Leadership Team on 9 February 2022 on the 2030 Net Zero Commitment. The full text is in the Leadership Team papers and appended to the minutes of the 2 February ESC meeting.	Cllr. Thalassites, Lead Member for Planning, Place & Environment	Rejected (but noted for further discussion)
Lead Member undertake a pilot scheme (including RAs and Amenities Societies) to assess the case for using modern (double, triple, or selective) window glazing on historic buildings within conservation areas. The study could specifically assess: the thermal insulation benefits of modern glazing; the degree to which improved glazing might contribute to the Borough's 2040 decarbonisation deadline; and whether the heritage impact of modern glazing could be mitigated using new and innovative techniques. Subject to the findings of this pilot, the Lead Member could then consider revising local policy to authorise wider use of modern glazing in heritage settings.	Cllr. Thalassites Lead Member for Planning, Place & Environment	Accepted
The SC recommends that the Lead Member revises planning policy to require 100% of on-site parking in new developments to make active provision for electric vehicle charging	Cllr. Thalassites, Lead Member for Planning, Place & Environment	Accepted
The SC recommended that the Leadership Team commits to its full implementation in the shortest possible timeframe.	Cllr. Weale, Lead Member for Finance	Accepted
The SC further recommended that the Lead Member undertakes a pilot study involving the housing service to trial the implementation of this procurement approach in a real-world setting.	Cllr. Weale, Lead Member for Finance	Partially accepted
The SC recommends that the work on the Tall Buildings SPD and the Kensal SPD are aligned and prioritised by the Lead Member and officers.	Cllr. Thalassites, Lead Member for Planning, Place & Environment	
The SC recommends that officers check if the SPD document in the Consultation presentation is sufficiently legible on the website. The document circulated to the SC was presented with double width landscape format and was very difficult to read.	Cllr. Thalassites, Lead Member for Planning, Place & Environment	Accepted
The SC supports the provision of shorter reports focused on Conservation Areas, cross referenced to generic topic reports as proposed. It also recommends that Lead Member and officers prioritise a topic report on the thermal and acoustic upgrading of glazing, together with full consultation with resident amenity societies and report progress to this SC within six months	Cllr. Thalassites, Lead Member for Planning, Place & Environment	Accepted

<p>The SC supports the proposal that the Council’s 2030 Carbon Zero commitment, its known costs, and current estimated risks are an integral part of the Medium Term Financial Strategy. Due to this emerging at pace, the Lead Member and officers should ensure all business streams, including Procurement, Risk, Audit and Transparency are regularly updated.</p>	<p>Cllr. Weale, Lead Member for Finance</p>	<p>Accepted</p>
<p>The SC welcomes the increasing exploration of sources additional funding to fill the currently perceived £100+m shortfall in resources identified to fulfil the Council Carbon Zero 2030 commitment. The SC recommends prioritising the further development of the RBKC Carbon Offset Fund to include a carbon offset payment annually from any Council asset that does not achieve the Carbon Zero 2030 commitment and that this resource be ring fenced to invest in achieving and maintain that commitment.</p>	<p>Cllr. Weale, Lead Member for Finance</p>	<p>Partially accepted</p>
<p>The SC welcomed the Integrated Neighbourhood Community Safety Model and recommended that the Lead Member prioritises further alignment with CREST, including ongoing work with Customer Services and IT systems, to enable a single point of track and trace access service for residents, businesses and visitors.</p>	<p>Cllr. Will, Lead Member for Culture, Leisure & Community Safety</p>	<p>Accepted</p>
<p>The SC recommended that Lead Members and officers ensure that the shortfall of money required to take housing stock to Carbon Zero by 2030 and potential solutions are regularly fed through to the finance department.</p>	<p>Cllr. Taylor Smith, Lead Member for Grenfell, Housing & Social Investment</p>	<p>Accepted</p>
<p>The SC recommended that Lead Members and officers ensure that the implications of this programme of work for leaseholders is fully researched and communicated.</p>	<p>Cllr. Taylor Smith, Lead Member for Grenfell, Housing & Social Investment</p>	<p>Accepted</p>
<p>The potential fuel poverty resilience benefits of the welcome Fabric First approach are communicated to occupants and that the emerging data relating to behavioural change understood.</p>	<p>Cllr. Taylor Smith, Lead Member for Grenfell, Housing & Social Investment</p>	<p>Accepted</p>
<p>The detail practical lessons from the Lancaster West pilot are learnt for wider implementation across the stock to achieve in practice the Carbon Zero 2030 commitment. These include sufficiently skilled site labour/management, product accreditation, market maturation of cost and performance for the supply and maintenance of new items including heat pumps and their Carbon Zero energy supply.</p>	<p>Cllr. Taylor Smith, Lead Member for Grenfell, Housing & Social Investment</p>	<p>Accepted</p>
<p>The SC recommended to the Lead Member for Culture, Leisure and Community Safety that the Kensington and Chelsea Festival and the Summer of Love is brought under a singular overarching brand, to help ensure there is full engagement with local populations and maximise attendance.</p>	<p>Cllr. Will, Lead Member for Culture, Leisure & Community Safety</p>	<p></p>
