Sarah

Please see the attached re champagne elevations and fixings. I think that we are happy with the champagne moving forward. The GRC would be used up to mezzanine level which is 3.1m.. It is based on the through-fix option. We are proposing a simpler chamfer detail to the front edge of the pilasters, two 45° folds rather than a recessed birdsmouth joint. The pdf also shows potential bollard locations

I hope that this answers your questions but please give me a call if you need any further information.

Kind regards

Marc Watterson

Subject: RE: Grenfell Tower, Materials Update

Marc,

Great to hear that you are now considering concealed fixings. In relation to the colour, I was expecting a colour drawing/CGI of the whole building in the grey and champagne colour before insisting this is changed ☐ are these available?

In relation to the GRC ☐ my query was in relation to how the proposed panels would be attached, is this a new material? If so, can I have details of how these would be attached? I think the opinion on colour would depend on the colour chosen for the panels on the rest of the building so we need to secure this first.

Regards,

Sarah Scannell

Subject: Grenfell Tower, Materials Update

Dear Sarah

Regarding materials at Grenfell Tower, we have now had the opportunity to discuss the various comments made.

We propose the following:

- The champagne colour, concealed fixings
- GRC at ground floor (colour options shown) please see the images attached where this has been used. This is a high quality, strong material that we propose to use in conjunction with a small number of bollards (to match KALC) to protect key corners and the entrance to

the bin store. The examples are - New Pudding Mill Lane DLR station- stairways, Blackfriars Station- column (internal), Kings Cross Station- Columns under Hotel and archways, West End Lane West Hampstead- Cladding (Opp station), White City, London- Not by BCM but panels to low level.

Also attached is the full proposed materials palette for context.

We would be grateful for your initial view on these matters before we arrange a sample of the GRC to be delivered to you.

Please give me a call if you would like to discuss.

Many thanks

Kind regards

Marc Watterson
