

## PLANNING APPLICATION PUBLIC COMMENT

Application number: PP/17/07888  
Site Address: 132B Fulham Road, LONDON, SW3 6HX  
Proposal: Demolition of dwelling house and erection of a two storey 2-bedroom detached house with subterranean development

**Comment received:** Firstly this proposed new construction is totally out of keeping with the listed period beauty of the area.

Secondly the noise and dirt and disruption caused to myself and my neighbours from a long term project such as this will be out of proportion to the merits of the project .

Thirdly impact on the value of adjoining properties is of great concern including my own .

Fourthly the location of the proposed development will most certainly cause massive disruption to traffic flow and public transport and moreover, possible danger to life if the free movement of ambulances is impeded during lengthy and guaranteed periods of delivery and collection from the single and only point of access on the very busy Fulham road .

Has Highways for RBKandC had involvement and consultation?  
The location is inappropriate for this type of development.
