Comment received: This application does not reflect the wants and needs of the community. This community has expressed, in many ways, how we would wish our neighbourhood to develop.
Solutions to the high-level of pollution from the A40 does not appear to have been addressed. Vertical gardens, on the concrete pillars of the Westway, like those in Mexico City would transform the cityscape and clean the surrounding air. Combating the pollution from the Westway should be the priority in any development plans for the area.
Provision of "more open and accessible open green space for the community" (Statement of Community Involvement) does not appear to have been included within this application. The drawings submitted do not include any additional green space than already exists at present.
