

## PLANNING APPLICATION PUBLIC COMMENT

Application number: PP/17/07888  
Site Address: 132B Fulham Road, LONDON, SW3 6HX  
Proposal: Demolition of dwelling house and erection of a two storey 2-bedroom detached house with subterranean development

**Comment received:** I am very concerned, as an owner and resident in a next-door building, about a number of aspects of this application.

(1)

The length of the building process and, in particular, the partial blockage of the Fulham Road for so long seems incredible. The traffic impact will be significant; due to the nearby bus stop there is already a lot of starting and stopping of traffic and this will be made worse by having a skip on the road. The noise impact at the rear of my flat, where the bedrooms are, will be significant not to mention the fumes etc.

Apart from the traffic impact, a build of nearly two years will generate noise and be an eyesore for too long; my bedrooms and balcony all back on to the proposed building site.

(2)

I am worried about the impact on the foundations of my building (35-37 Cranley Gardens)

(3)

I am worried about the design of the new building which does not seem in keeping with the area immediately around it.
