

PLANNING APPLICATION PUBLIC COMMENT

Application number: PP/17/07888
Site Address: 132B Fulham Road, LONDON, SW3 6HX
Proposal: Demolition of dwelling house and erection of a two storey 2-bedroom detached house with subterranean development

Comment received: The area is characterized by 19th century architecture - much of it listed - all within a conservation area. Owners and tenants are required to pay premium prices and respect strict constraints for labour and materials as well as go through lengthy and complex approval procedures in order to maintain their beautiful historic homes as an asset to London, so the inclusion of an 21st Century building is in stark contrast with the need to preserve the general aspect of the neighborhood. Besides, it replaces and not creates a dwelling and is of no public, social or environmental value.
