O B J E C T I O N

To the Planning Officer,

I have been resident in Kensington Square since 1962 and I am writing to object to the proposed redevelopment at the above.

This prime site with access to the parks, the museums and one of the best transport hubs in London should not be designated exclusively and in perpetuum for a demographic of wealthy over-55year olds.

The KSRA does not speak for all the residents as only a handful attend the meetings. The issue of the acceptability or otherwise of the proposed development has not been discussed. The enormous amount of work put in by the secretary on behalf of what she perceives to be the residents best interest - namely traffic containment - accounts for the support given.

I hope you will reject this application as it stands.
