

## PLANNING APPLICATION PUBLIC COMMENT

Application number: PP/17/01413  
Site Address: Queen Ann's Orangery, Palace Green, LONDON, W8 4PZ  
Proposal: Demolition of structures to rear of The Orangery, construction of extension comprising basement and single storey above ground. Alterations, including provision of two internal links to landscaping south of The Orangery lawn, including new gardener's store. Provision of temporary marquee during period of construction. Associated works and landscaping.

**Comment received:** I write on behalf of the Knightsbridge Association supporting this application. As part of the on going programme of renovation at Kensington Palace this application to extend the rear of the Orangery is a welcome part of that scheme.  
The plans show a design that is both sensitive and sympathetic to its surroundings as well as functional. It will allow greatly needed back-of-house facilities without interfering with the Orangery's southern façade. We applaud the removal of the existing structures at the rear.  
As a freestanding building in its own grounds we have no objection to the excavation of the basements that form an important part of this project.  
We ask that this application be approved.
