Introduction

This document provides information on the journals and newspapers which can be viewed in Kensington and Chelsea's libraries. It contains information about archived periodicals, as well as periodicals which are currently subscribed to.

What you will find in each section

1. **Alphabetical list of holdings:** An alphabetical list by title. Each entry will show you:
 - a. **Location** - which library holds each title.
 - b. **Holdings** - If it is an archived periodical you will see the length of the back file. If it is a current title you will see how long we keep back issues for.
2. **A – Z of current newspapers:** This section lists the newspapers we currently take, where they are held, for how long, and how frequently they are published.
3. **A – Z of current magazines:** This section lists the magazines we currently take, where they are held, for how long, and how frequently they are published.
4. **A – Z of children's magazines:** This section lists the children's magazines we currently take, where they are held, for how long, and how frequently they are published.
5. **Subject index:** All titles are listed by subject. This includes both archived and current holdings (titles which are currently taken are marked with an *).

Please telephone to check that the periodical you require is available before making a journey to the library. Periodicals may not be readily available for a variety of reasons (i.e. changes in holdings, copies at binding, missing issues), so checking beforehand is essential to avoid disappointment.

Online resources

Kensington & Chelsea Libraries also subscribe to a number of online resources, some of which allow access to digital copies of journal and newspaper articles. Please click on the link below or ask a member of staff for further details.
