Forest School from home!

Birdwatching

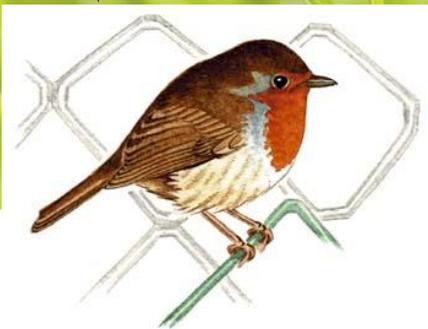

Birds are now in full on nesting mode and can be heard singing to attract a mate and defend their territories.

You might also see them collecting natural materials for their nests.

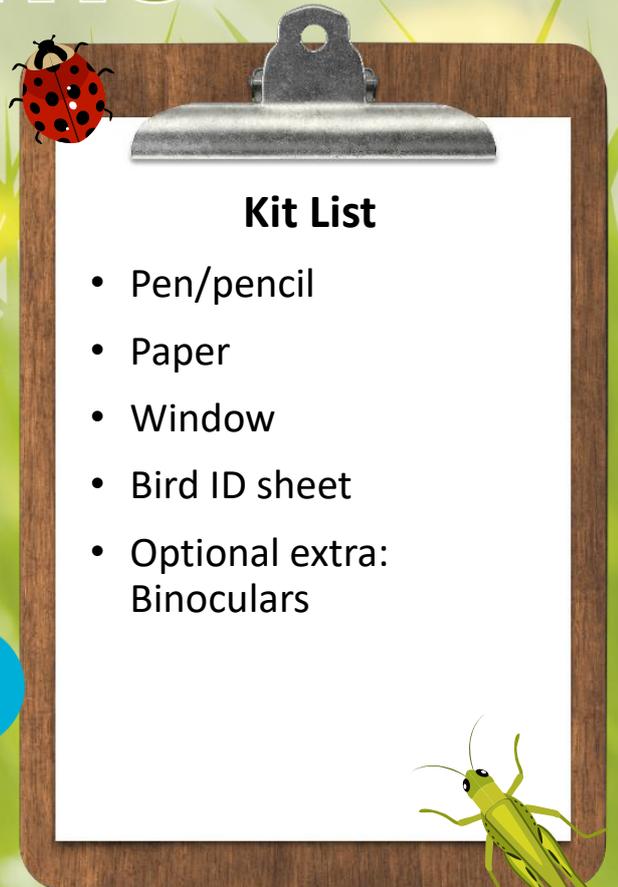

Step
One

Find a window to look out on ideally some trees or a lawn. Spend up to a hour looking for birds and record below what you see.

Use [this bird sheet](#) to identity commonly seen bird species. You can also use the RSPB's bird identifier: <https://www.rspb.org.uk/birds-and-wildlife/wildlife-guides/identify-a-bird/>

City of Westminster

Kit List

- Pen/pencil
- Paper
- Window
- Bird ID sheet
- Optional extra:
Binoculars

Extension Ideas:

- Keep a tally of what species you see.
- Keep a daily record of what you see and how they are behaving
- Research your favourite bird on books or online.
