

Nature at home

Experience the magic of Forest School from home!

Bumblebees

Bring nature indoors by creating this simple bumblebee out of a toilet roll.

Step One

Paint an empty toilet roll in yellow and leave to dry.
Cut two large wings out of plain card or paper.

Step Two

Glue two strips of black paper and wrap them around the tube to create the bumblebee stripes.

Step Three

Glue on the googly eyes and draw a smiley face using the permanent marker. Glue the wings on the bumblebee at the back of the tube.

Step Four

Create the antennae by gluing two short twigs inside the tube so they are poking out at the top. If you don't have twigs use straws, old pencils or lollypop sticks

Kit List

- Toilet roll
- Paper/card
- 2 small twigs
- Googly eyes
- 2 strips of blackpaper

What other animals could you make? Maybe a butterfly or a ladybird?
