

# Nature at home

## Experience the magic of Forest School from home!

### Butterfly Feeder

Age: KS1- KS2

*Butterflies are beginning to appear at this time of year, so why not build a butterfly feeder to see if you can attract some to your home or garden?*

#### Step One

Draw a pretty flower onto the card and colour it in! Cut out the shape.

#### Step Two

Tape the bottle top to the middle of the flower, and then tape the finished flower to a stick or cane. Stick it into the pot!

#### Step Three

Mix together the sugar and water, dunk the cotton wool or tissue into it and stick it into the bottle top. Butterflies love sugary sweetness!

#### Step Four

Replace your cotton wool every few days. Have you seen any butterflies or any other insects? Make a diary of what you see.

#### Kit List

- A pot with some soil
- Sugar and water
- A stick or cane
- Sellotape and scissors
- Colouring pencils
- Card
- Cotton wool (or tissue)
- A bottle top
