Experience the magic of
Forest School from home!

Colour Wheel

The spring is a beautiful time outside and there are so many colours to see. Take this colour wheel with you, or make your own, to see how many different colours you can find.

You can either use the colour wheel below or make your own. If you're making your own, have a think about the different colours you expect to find outside. Then add some colours you don't expect to find you challenge yourself.

Head outside with either your home made or printed colour wheel. Start searching for colours which exactly match. Please remember not to pick flowers or living things. Can you complete the colour wheel?

Kit List

- This sheet either printed or on a phone.
- OR: pens or paints and brushes and paper.
