## Dragonflies and Damselflies

Work out the difference between these beautiful creatures and see which you can spot if you are near a canal, river or pond.

Can you spot the differences between a dragonfly and damselfly?

Look at their body shapes and wings, rather than colour.

*Dragonfly*

*Broad bodied chaser*

*Damselfly*

*Large red damselfly*

If you walk beside a river, canal or pond see if you can spot some of these:

*Emperor dragonfly*

*Common blue damselfly*

*Banded demoiselle*

*Photos from the British Dragonfly website*

A great website to help you identify dragonflies and damselflies is: <https://british-dragonflies.org.uk/odonata/species-and-identification/>
