

Royal Borough of Kensington and Chelsea - Targeted Prevention Team are keen to empower young people, and their parents/carers to be more informed about different employment and careers opportunities.

As a service we strongly believe young people gain a lot from external speakers who can offer different viewpoints, insight and experiences. Because of this, we are interested in bringing together professionals from different industries to meet, inspire and uplift the young people within Kensington and Chelsea.

Are you a professional or an organisation able to offer professional talks – sharing your experience. Insight days – providing an overview of your business. Work experience - providing work placements. If you are, please complete the form below and we will get back to you as soon as possible.

Name:.....

Telephone number:.....

Email address:.....

I can offer...*(tick all that apply)

- Careers talk
- Work experience placement
- Careers workshop
