Introduction

The Gambling Act 2005 (the “Act”) requires this Licensing Authority to draft, consult on and publish a Statement of Licensing Policy in relation to its responsibilities under the Act. Once published, this Policy Statement, called the Statement of Gambling Policy (“SGP”) will be kept under constant review and, in any case, will be re-published after every three years. Before any revision of the proposed SGP is published this Authority will carry out a full consultation exercise on the relevant sections. This version of the proposed SGP has been revised following the first 3 year review and is for the period 2010 – 2113.

Section 25 of the Gambling Act states that;

"Section 25 - Guidance to local authorities

The (Gambling) Commission shall from time to time issue guidance as to-
(a) the manner in which local authorities are to exercise their functions under this Act, and
(b) in particular, the principles to be applied by local authorities in exercising functions under this Act.”

The Gambling Commission has duly issued Guidance to Licensing Authorities, Paragraphs 1.17 – 1.24 of which relates to the status of the Guidance and the weight that Licensing Authorities must place upon it. The Guidance stipulates what Licensing Authorities must include in their Statements of Gambling Policy and places restrictions on the discretion of an Authority to interpret sections of the Act to suit its own particular area. Paragraph 1.20 states that;

“In drafting this guidance, the Commission’s intention is that, where appropriate, there should be consistency across licensing authorities about the manner in which functions under the Act are carried out. That is important in two respects:
- to meet the obligations on the Commission and on licensing authorities to pursue the licensing objectives, the Commission will be seeking to achieve a consistent standard of regulation and shared priorities; and
- in accordance with Government initiatives on minimising the impact of regulation on businesses and, in particular, the Hampton Review of regulation, it will be part of the Commission’s role to ensure that operators receive sufficient advice to help them understand and comply with gambling regulation. Part of this will require the Commission to be satisfied that operators know what the requirements of licensing authorities are likely to be.”

This Policy, therefore, generally follows the principles laid down in the Gambling Commission’s Guidance to Licensing Authorities.
The Gambling Act 2005 can be accessed via:

www.opsi.gov.uk/ACTS/acts2005/20050019.htm

and the Gambling Commission’s Guidance to Licensing Authorities may be accessed via;

http://www.gamblingcommission.gov.uk/Client/detail.asp?ContentId=299

The Act also requires this Authority to carry out its various licensing functions so as to be reasonably consistent with the following three licensing objectives:

- preventing gambling from being a source of crime and disorder, being associated with crime or disorder, or being used to support crime
- ensuring that gambling is conducted in a fair and open way
- protecting children and other vulnerable persons from being harmed or exploited by gambling

As required by the Guidance issued by the Gambling Commission, in carrying out its licensing functions under the Act, particularly with regard to premises licences, the Council will generally aim to permit the use of premises for gambling as long as it is considered to be:

- in accordance with any relevant code of practice issued by the Gambling Commission,
- in accordance with any relevant guidance issued by the Commission
- reasonably consistent with the licensing objectives, and
- in accordance with the policy statement published by this Authority under section 349 of the Act

Nothing in this proposed SGP will override the right of any person to make an application under this Act and have that application considered on its individual merits. Equally, nothing in the proposed SGP will undermine the right of any person to make representations to an application, or seek a review of a licence where there is a legal power to do so.

This Authority will endeavour to ensure that when considering applications under this legislation it will avoid duplication with other regulatory regimes so far as possible.
1.6 Previous gambling legislation required that the grant of certain gambling permissions should take account of whether there was an unfulfilled demand for gambling facilities. However, unfulfilled demand is not a criterion for a Licensing Authority in considering an application for a premises licence under the Gambling Act. Each application will be considered on its merits without regard to demand.

2. **A Profile of the Royal Borough of Kensington and Chelsea**

The Royal Borough of Kensington and Chelsea is the Licensing Authority under the Gambling Act 2005. The term “Licensing Authority” will be used in all future references to “The Royal Borough of Kensington and Chelsea” in this proposed Statement of Gambling Policy.

The Royal Borough is situated in West London with Westminster City Council to the east, Brent Council to the north, Hammersmith and Fulham Council to the west and the river Thames to the south. The Borough has a large number of nationally and internationally famous buildings, shopping streets, restaurants and museums and attracts a significant number of visitors and tourists daily in addition to the resident population.

2.3 While the Royal Borough is the smallest of the London Boroughs, covering 1,213 hectares (2,997.32 acres), it is also the most densely populated local authority area in this country with 144 people per hectare (58.18 per acre)*. Residential and business properties sit “cheek by jowl” throughout the Borough. This can be compared to another inner London Borough, Camden, which covers an area of 2,180 hectares (5,337.4 acres), nearly twice the size of the Royal Borough, and has 99.54 people per hectare (40.03 per acre). The City of Westminster, covers an area of 2,148 hectares (5,307.7 acres) with 108 people per hectare (43.72 per acre), and the London Borough of Greenwich, covering an area of 5,043 hectares (12,461.3 acres) with 44.93 people per hectare (18.19 per acre). A map of the Royal Borough is attached as Appendix A.

*(size of local authority and density of population information obtained from the national census of 2001 as amended in 2004)*

2.4 Because of the small size of the Royal Borough and the density of its residential population there are very few areas within its boundaries that could be described as solely commercial or shopping areas. Even those that are commercial or shopping areas have significant numbers of residential dwellings above commercial premises and residential areas in close proximity.
3. Consultation on the Statement of Licensing Policy

3.1 Before publishing this proposed SGB the Licensing Authority has consulted with the Police, the Fire Authority, representatives of local residents, representatives of local businesses and representatives of those persons carrying on gambling businesses in this Authority’s area. This Licensing Authority has also consulted with relevant departments within the Council.

4. Declaration

In producing this proposed SGP, this Licensing Authority declares that it has had regard to the licensing objectives of the Gambling Act 2005, the Guidance issued by the Gambling Commission and any responses from those consulted on the Statement.

5. Responsible Authorities and Interested Parties

5.1 The Gambling Act 2005 allows for two different types of groups to make representations regarding applications to the Licensing Authority and also to apply to have existing licences reviewed by the Authority. These groups are “Responsible Authorities” and “Interested Parties”

5.2 The Act defines Responsible Authorities as:

(a) a licensing authority in England and Wales in whose area the premises are wholly or partly situated,
(b) the Gambling Commission,
(c) the chief officer of police for a police area in which the premises are wholly or partly situated,
(d) the fire and rescue authority for an area in which the premises are wholly or partly situated,
(e) the local planning authority, in accordance with Part I of the Town and Country Planning Act 1990 (c. 8), for an area in which the premises are wholly or partly situated,
(f) an authority which has functions by virtue of an enactment in respect of minimising or preventing the risk of pollution of the environment or of harm to human health in an area in which the premises are wholly or partly situated,
(g) a body which is designated in writing for the purposes of this paragraph, by the licensing authority for an area in
which the premises are wholly or partly situated, as
competent to advise the authority about the protection of
children from harm,
(h) Her Majesty's Commissioners of Customs and Excise, and
(i) any other person prescribed for the purposes of this
section by regulations made by the Secretary of State.

5.3 For the purpose of this Licensing Authority the body designated
as competent to advise the authority about the protection of
children from harm (“g” above) will be the Local Safeguarding
Children Board at the Royal Borough of Kensington and Chelsea.

5.4 Section 158 of the Act states that a person is an “Interested
Parties” if, in the opinion of the Licensing Authority that person
(a) lives sufficiently close to the premises to be likely to be
affected by the authorised activities,
(b) has business interests that might be affected by the
authorised activities, or
(c) represents persons who satisfy paragraph (a) or (b).

5.5 The Licensing Authority is required by Regulations to state the
principles it will apply in exercising its powers under the Act to
determine whether a person is an interested party.

The principles for this Authority are that each case will be
decided upon its own merits and rigid rules will not be applied to
its decision making. It will consider the examples provided in the
Gambling Commission’s Guidance for Licensing Authorities at
paragraphs 8.14 and 8.18. It will also consider the Commission’s
Guidance that “has business interests” should be given the
widest possible interpretation and include partnerships, charities,
faith groups and medical practices.

5.6 Section 158 of the Gambling Act states that an “interested party”
must “live sufficiently close to the premises to be likely to be
affected by the authorised activities”, or “has business interests
that might be affected by the authorised activities”, or be a body
representing persons who satisfy this criteria. The Gambling
Commission recommends in its Guidance to Licensing Authorities
that Interested Parties could include trade associations and trade
unions, and residents’ and tenants’ associations. However, it
fails to mention that those bodies should represent persons or
businesses sufficiently close to be likely to be affected by the
operation of the premises. (Gambling Commission Guidance for
Local Authorities paragraph 8.17). This Authority will follow section 158 of the Act and will not generally view these bodies as interested parties unless they have a member who can be classed as an interested person under the terms of the Gambling Act 2005, i.e. they live sufficiently close or carry on a business so that they will be likely to be affected by the activities being applied for.

6. **Exchange of Information**

6.1 Licensing Authorities are required to include in their SGP the principles to be applied by the Authority in exercising the functions under sections 29 and 30 of the Act with respect to the exchange of information between it and the Gambling Commission, and the functions under section 350 of the Act with the respect to the exchange of information between it and the other persons listed in Schedule 6 to the Act.

6.2 The principle that this Licensing Authority applies is that it will act in accordance with the provisions of the Act in its exchange of information which includes the provision that the Data Protection Act 1998 will not be contravened. The Licensing Authority will also have regard to any Guidance issued by the Gambling Commission to Local Authorities on this matter when it is published, as well as any relevant regulations issued by the Secretary of State under the powers provided in the Gambling Act 2005.

7. **Enforcement**

7.1 Licensing Authorities are required by regulation under the Act to state the principles to be applied by the Authority in exercising the functions under Part 15 of the Act with respect to the inspection of premises; and the powers under section 346 of the Act to institute criminal proceedings in respect of the offences specified.

7.2 This Licensing Authority’s principles are that it will be guided by the Gambling Commission’s Guidance for Local Authorities and will endeavour to be:

- Proportionate: regulators should only intervene when necessary: remedies should be appropriate to the risk posed, and costs identified and minimised;
- Accountable: regulators must be able to justify decisions and be subject to public scrutiny;
• Consistent: rules and standards must be joined up and implemented fairly;
• Transparent: regulators should be open, and keep regulations simple and user friendly; and
• Targeted: regulation should be focused on the problem, and minimise side effects.

This Authority will also act in accordance with its own Enforcement Policy.

7.3 As per the Gambling Commission’s Guidance for Licensing Authorities, this Authority will endeavour to avoid duplication with other regulatory regimes so far as possible.

7.4 This Authority will also, as recommended by the Gambling Commission’s Guidance for Licensing Authorities, adopt a risk-based inspection programme.

7.5 The main enforcement and compliance role for this Licensing Authority in terms of the Act will be to ensure compliance with the premises licences and other permissions that it authorises. The Gambling Commission will be the enforcement body for the operating and personal licences. It is also worth noting that concerns about manufacture, supply or repair of gaming machines will also be dealt with by the Gambling Commission.

7.6 This Licensing Authority also keeps itself informed of developments as regards the work of the Better Regulation Executive in its consideration of the regulatory functions of local authorities. Bearing in mind the principle of transparency, this Licensing Authority’s enforcement policy is available at: www.rbkc.gov.uk/EnvironmentalServices/Licensing/enforcement_policy.pdf

8. Licensing Authority Functions

8.1 Licensing Authorities are required under the Act to:
• Be responsible for the licensing of premises where gambling activities are to take place by issuing Premises Licences
• Issue Provisional Statements where premises are intended to provide gambling activities
• Regulate members’ clubs and miners’ welfare institutes who wish to undertake certain gaming activities via issuing Club Gaming Permits and/or Club Machine Permits
• Issue Club Machine Permits to Commercial Clubs
• Grant permits for the use of certain lower stake gaming machines at unlicensed Family Entertainment Centres
• Receive notifications from alcohol licensed premises (under the Licensing Act 2003) for the use of two or fewer gaming machines
• Issue Licensed Premises Gaming Machine Permits for premises licensed to sell/supply alcohol for consumption on the licensed premises, under the Licensing Act 2003, where there are more than two machines.
• Register small society lotteries below prescribed thresholds
• Issue Prize Gaming Permits
• Receive and Endorse Temporary Use Notices
• Receive Occasional Use Notices
• Provide information to the Gambling Commission regarding details of licences issued (see section above on ‘information exchange’)
• Maintain registers of the permits and licences that are issued under these functions

It should be noted that local Licensing Authorities will not be involved in licensing remote gambling at all. This will fall to the Gambling Commission via operating licences. The Financial Services Authority regulates spread betting and the National Lottery Commission regulates The National Lottery

9. PREMISES LICENCES

9.1 Premises licences will be subject to the requirements set out in the Gambling Act 2005 and Regulations, as well as specific mandatory and default conditions which are detailed in regulations issued by the Secretary of State (The Gambling Act 2005 (Mandatory and Default Conditions) (England and Wales) Regulations 2007). Licensing Authorities are able to exclude default conditions where appropriate and also attach additional conditions where relevant.

9.2 This Licensing Authority is aware that in making decisions about premises licences it should aim to permit the use of premises for gambling in so far as it thinks it is;
• in accordance with any relevant code of practice issued by the Gambling Commission
• in accordance with any relevant guidance issued by the Gambling Commission
• reasonably consistent with the licensing objectives, and
• in accordance with the Authority’s statement of licensing policy.
9.3 This Authority takes particular note of the Gambling Commission’s Guidance for Licensing Authorities, which states that Authorities should take particular care in considering applications for multiple licences for a building, and those relating to a discrete part of a building used for other (non-gambling) purposes. In particular they should be aware that entrances and exits from parts of a building covered by one or more licences should be separate and identifiable so that the separation of different premises is not compromised and that people do not ‘drift’ into a gambling area. Licensing Authorities should pay particular attention to applications where access to the licensed premises is through other premises (which themselves may be licensed or unlicensed).

9.4 Clearly, there will be specific issues that Authorities should consider before granting such applications, for example, whether children can gain access; compatibility of the two establishments; and ability to comply with the requirements of the Act. But, in addition, an overriding consideration should be whether, taken as a whole, the co-location of the licensed premises with other facilities has the effect of creating an arrangement that otherwise would, or should, be prohibited under the Act.

9.5 This Authority takes particular note of paragraphs 7.12 to 7.14 of the Gambling Commission’s Guidance to Licensing Authorities relating to the artificial sub-division of premises. It also takes note of section 152 (1) of the Act and Regulation 12(2) of the Gambling Act 2005 (Mandatory and Default Conditions) (England and Wales) Regulations 2007 and will look very carefully at any application that may appear to breach any of these provisions.

9.6 This Authority also takes particular note of the Gambling Commission’s Guidance, contained in paragraphs 7.5 and 7.6, regarding the “primary gambling activity” authorised under a premises licence. For example, where a premises is licensed to provide bingo facilities then the primary activity must be the provision of bingo, with gaming machines being an ancillary offering in the premises. This Authority also notes the Gambling Commission’s Code of Practice for the Primary Gambling Activity of licensed premises that came into effect on the 1 May 2009.

9.7 It should also be noted that an applicant cannot obtain a full premises licence until the premises in which it is proposed to offer the gambling are constructed. The Gambling Commission has advised that references to “the premises” are to the
premises in which gambling may now take place. Thus a licence to use premises for gambling will only be issued in relation to premises that are ready to be used for gambling. This Authority agrees with the Gambling Commission that it is a question of fact and degree whether premises are finished to a degree that they can be considered for a premises licence. The Gambling Commission emphasises that requiring the building to be complete ensures that the Authority can, if necessary, inspect it fully, as can other Responsible Authorities with inspection rights.

9.8 This Licensing Authority is aware that demand issues cannot be considered with regard to the location of premises but that considerations in terms of the licensing objectives can. As per the Gambling Commission’s Guidance for Licensing Authorities, this Authority will pay particular attention to the protection of children and vulnerable persons from being harmed or exploited by gambling, as well as issues of crime and disorder. Should any specific policy be decided upon regarding areas where gambling premises should not be located, this Statement will be updated. It should be noted that any such policy does not preclude any application being made and each application will be decided on its merits, with the onus being upon the applicant to show how potential concerns can be overcome.

9.9 This Licensing Authority will seek to avoid any duplication with other statutory/regulatory systems where possible, including planning. This Authority will not consider whether a licence application is likely to be awarded planning permission or building regulations approval in its consideration of it.

9.10 Planning: The Gambling Commission Guidance to Licensing Authorities states:

7.59 – In determining applications the Licensing Authority has a duty to take into consideration all relevant matters and not to take into consideration any irrelevant matters, i.e. those not related to gambling and the licensing objectives. One example of an irrelevant matter would be the likelihood of the applicant obtaining planning permission or building regulations approval for their proposal...

This Authority will not take into account irrelevant matters as per the above guidance. In addition this Authority notes the following excerpt from the Guidance:

7.66 - When dealing with a premises licence application for finished buildings, the Licensing Authority should not take into
account whether those buildings have or comply with the necessary planning or building consents. Nor should fire or health and safety risks be taken into account. Those matters should be dealt with under relevant planning control and building regulation powers, and not form part of the consideration for the premises licence. Section 210 of the 2005 Act prevents licensing authorities taking into account the likelihood of the proposal by the applicant obtaining planning or building consent when considering a premises licence application. Equally, the grant of a gambling premises licence does not prejudice or prevent any action that may be appropriate under the law relating to planning or building.

9.11 Premises licences granted must be reasonably consistent with the licensing objectives. This Licensing Authority is aware that the Gambling Commission will be taking a leading role in preventing gambling from being a source of crime. The Gambling Commission's Guidance does however envisage that Licensing Authorities should pay attention to the proposed location of gambling premises in terms of this licensing objective. Where an area has known high levels of crime this Authority will consider carefully whether gambling premises are suitable to be located there and whether conditions, such as the provision of door supervisors, may be relevant.

9.12 Where gambling premises are located in sensitive areas, e.g. near schools, this Licensing Authority will consider imposing restrictions on advertising the gambling facilities on such premises where it is felt relevant and reasonably consistent with the Licensing Objectives.

9.13 Ensuring that gambling is conducted in a fair and open way - This Licensing Authority has noted that the Gambling Commission has stated that it would generally not expect Licensing Authorities to become concerned with ensuring that gambling is conducted in a fair and open way as this will be addressed via operating and personal licences.

9.14 Protecting children and other vulnerable persons from being harmed or exploited by gambling - This Licensing Authority has noted that the Gambling Commission's Guidance for Licensing Authorities states that this objective means preventing children from taking part in gambling (as well as restriction of advertising so that gambling products are not aimed at, or are particularly attractive to, children). The Licensing Authority will therefore consider, as suggested in the
Gambling Commission's Guidance, whether specific measures are required at particular premises with regard to this licensing objective. Appropriate measures may include supervision of entrances/machines, segregation of areas etc.

9.15 As regards the term “vulnerable persons” it is noted that the Gambling Commission is not seeking to offer a definition but states that “it will for regulatory purposes assume that this group includes people who gamble more than they want to; people who gamble beyond their means; and people who may not be able to make informed or balanced decisions about gambling due to a mental impairment, alcohol or drugs.” This Licensing Authority will consider this licensing objective on a case by case basis. Should a practical definition prove possible in future then this policy statement will be updated with it, by way of a revision. This Authority will also make itself aware of the Codes of Practice which the Gambling Commission issues in relation to this licensing objective regarding specific premises such as casinos.

9.16 Any conditions attached to licences will be proportionate and will be:

- relevant to the need to make the proposed building suitable as a gambling facility;
- directly related to the premises and the type of licence applied for;
- fairly and reasonably related to the scale, neighbourhood and type of premises; and
- reasonable in all other respects.

Decisions upon individual conditions will be made on a case by case basis, although there will be a number of measures this Licensing Authority will consider utilising should there be a perceived need, such as the use of door supervisors, appropriate signage for adult only areas etc. This Authority will also consider specific measures which may be required for buildings which are subject to multiple premises licences. Such measures may include the supervision of entrances; segregation of gambling from non-gambling areas frequented by children; and the supervision of gaming machines in non-adult gambling specific premises in order to pursue the licensing objectives. These matters are in accordance with the Gambling Commission's Guidance.

9.17 This Authority will also ensure that where category C or above machines are on offer in premises to which children are admitted:
• all such machines are located in an area of the premises which is separated from the remainder of the premises by a physical barrier which is effective to prevent access other than through a designated entrance;
• only adults are admitted to the area where these machines are located;
• access to the area where the machines are located is supervised;
• the area where these machines are located is arranged so that it can be observed by the staff or the licence holder; and
• at the entrance to and inside any such areas there are prominently displayed notices indicating that access to the area is prohibited to persons under 18.
These considerations will apply to premises including buildings where multiple premises licences are applicable.

9.18 It is noted that because of restrictions imposed by the Gambling Act there are conditions which the Licensing Authority cannot attach to premises licences, which are:
• any condition on the premises licence which makes it impossible to comply with an operating licence condition;
• conditions relating to gaming machine categories, numbers, or method of operation;
• conditions which provide that membership of a club or body be required (the Gambling Act 2005 specifically removes the membership requirement for casino and bingo clubs and this provision prevents it being reinstated); and
• conditions in relation to stakes, fees, winning or prizes.

9.19 The Gambling Commission advises in its Guidance for Licensing Authorities that they may consider whether there is a need for door supervisors in terms of the licensing objectives of protection of children and vulnerable persons from being harmed or exploited by gambling, and also in terms of preventing premises becoming a source of crime. It is noted though that there is no requirement for "in house" door supervisors at casinos or bingo premises to be licensed by the Security Industry Authority (SIA) through a specific exemption contained in Paragraph 17 of Schedule 16 to the Act. However, following clarification from the Department for Culture, Media and Sport (DCMS) and the Security Industry Authority (SIA), any contract staff employed in a Door Supervisor role will still require to be licensed by the SIA.

9.20 For premises other than “in house” staff employed at casinos and bingo premises, operators and Licensing Authorities may decide that supervision of entrances/machines is appropriate for particular cases but it will need to be decided whether these
need to be SIA licensed or not. It will not be automatically assumed that they need to be.

9.21 There is no evidence that the operation of betting offices has required door supervisors for the protection of the public. This Licensing Authority will make a door supervisor requirement only if there is clear evidence from the history of trading at the premises that the premises cannot be adequately supervised from the counter and that door supervision is both necessary and proportionate.

9.22 In relation to Adult Gaming Centres this Licensing Authority will specifically have regard to the need to protect children and vulnerable persons from harm or being exploited by gambling. It is recommended that if applicants provide means to satisfy the Authority that there will be sufficient measures to, for example, ensure that under 18 year olds do not have access to the premises. Such measures may cover issues such as:

- Proof of age schemes
- CCTV
- Supervision of entrances/machine areas
- Physical separation of areas

9.23 In relation to (licensed) Family Entertainment Centres this Licensing Authority will specifically have regard to the need to protect children and vulnerable persons from harm or being exploited by gambling. It is recommended that if applicants are able to satisfy the Authority that, for example, there will be sufficient measures to ensure that under 18 year olds do not have access to the adult only gaming machine areas. Such measures may include:

- CCTV
- Supervision of entrances/machine areas
- Physical separation of areas
- Location of entry
- Notices/signage
- Specific opening hours
- Self-barring schemes
- Provision of information leaflets/helpline numbers for organisations such as GamCare.
- Measures/training for staff on how to deal with suspected truanting school children on the premises

This list is not mandatory, nor exhaustive, and is merely indicative of example measures.
9.24 No Casinos resolution – At this time this Licensing Authority has not passed a ‘no casino/no additional casinos’ resolution under Section 166 of the Act, but is aware that it has the power to do so. Should the Licensing Authority decide in the future to pass such a resolution, this SGP will be updated with details of that resolution. Any such decision will be made by the Full Council.

9.25 Bingo Premises - This Licensing Authority notes that the Gambling Commission’s Guidance states in paragraph 18.4 that:

“It is important that if children are allowed to enter premises licensed for bingo that they do not participate in gambling, other than on category D machines. Where category C or above machines are available in premises to which children are admitted Licensing Authorities should ensure that:

- all such machines are located in an area of the premises separate from the remainder of the premises by a physical barrier which is effective to prevent access other than through a designated entrance;
- only adults are admitted to the area where the machines are located;
- access to the area where the machines are located is supervised;
- the area where the machines are located is arranged so that it can be observed by staff of the operator or the licence holder; and
- at the entrance to, and inside any such area there are prominently displayed notices indicating that access to the area is prohibited to persons under 18

9.26. Betting machines in Betting Premises - This Licensing Authority will, as per the Gambling Commission's Guidance, take into account the size of the premises, the number of counter positions available for person-to-person transactions, and the ability of staff to monitor the use of the machines by children and young persons (it is an offence for those under 18 to bet) or by vulnerable people, when considering the number and nature of betting machines an operator wants to offer. This Authority will consider limiting the number of machines only where there is evidence that such machines have been, or are likely to be, used in breach of the licensing objectives. Where there is such evidence this Authority may consider, when reviewing the licence, the ability of staff to monitor the use of such machines from the counter.
9.27 **Betting Offices** – This Licensing Authority will look closely at applications to re-site betting offices in the same locality or to extend premises in order to enhance the quality of facilities offered to the public who may wish to use them. The Authority will look at those applications sympathetically where there are no concerns that the Licensing Objectives will be adversely affected.

9.28 This Licensing Authority recognises that certain bookmakers have a number of premises within its area. In order to ensure compliance issues are recognised and resolved at the earliest stage, operators are requested to give the Authority a single named point of contact, who should be a senior individual, and whom the Authority will contact first should any compliance queries or issues arise.

9.29 **Travelling Fairs** - It will fall to this Licensing Authority to decide whether, where category D machines and/or equal chance prize gaming without a permit is to be made available for use at travelling fairs, the statutory requirement that the facilities for gambling amount to no more than an ancillary amusement at the fair is met.

The Licensing Authority will also consider whether the applicant falls within the statutory definition of a travelling fair.

It has been noted that the 27-day statutory maximum for the land being used as a fair, is per calendar year, and that it applies to the piece of land on which the fairs are held, regardless of whether it is the same or different travelling fairs occupying the land. This Licensing Authority will work with its neighbouring authorities to ensure that land which crosses our boundaries is monitored so that the statutory limits are not exceeded.

9.30 **Provisional Statements** - This Licensing Authority notes the Guidance from the Gambling Commission which states that “It is a question of fact and degree whether premises are finished to a degree that they can be considered for a premises licence” and that “Requiring the building to be complete ensures that the authority could, if necessary, inspect it fully”.

The Gambling Act 2005 (Premises Licences and Provisional Statements) Regulations requires applications for Provisional Statements to be advertised in the same way as applications for Premises Licences. In terms of representations about premises licence applications, following the grant of a provisional statement, no further representations from relevant authorities
or interested parties can be taken into account unless they concern matters which could not have been addressed at the provisional statement stage, or they reflect a change in the applicant’s circumstances. In addition, the Authority may refuse the premises licence (or grant it on terms different to those attached to the provisional statement) only by reference to matters:

(a) which could not have been raised by objectors at the provisional licence stage; or
(b) which in the authority’s opinion reflect a change in the operator’s circumstances.

This Authority has noted the Gambling Commission’s Guidance that “A licensing authority should not take into account irrelevant matters.... One example of an irrelevant matter would be the likelihood of the applicant obtaining planning permission or building regulations approval for the proposal."

9.31 **Reviews** - Requests for a review of a premises licence can be made by interested parties or responsible authorities, however, it is for the Licensing Authority to decide whether the review is to be carried out. This will be on the basis of whether the request for the review is relevant to the matters listed below, as well as consideration as to whether the request is frivolous, vexatious or will certainly not cause this Authority to wish to alter/revoke/suspend the licence, or whether it is substantially the same as previous representations or requests for review unless there is a material change in circumstances.

- in accordance with any relevant code of practice issued by the Gambling Commission;
- in accordance with any relevant guidance issued by the Gambling Commission;
- reasonably consistent with the licensing objectives; and
- in accordance with the authority’s statement of licensing policy.

The Licensing Authority can also initiate a review of a licence on the basis of any reason which it thinks is appropriate.

10. **Permits and Temporary and Occasional Use Notices**

10.1 Unlicensed Family Entertainment Centre gaming machine permits (Statement of Principles on Permits - Schedule 10 paragraph 7 to the Gambling Act 2005)
Where an operator does not hold a premises licence but wishes to provide gaming machines, an applicant may apply to the Licensing Authority for this permit. It should be noted that the applicant must show that the premises will be wholly or mainly used for making gaming machines available for use (Section 238).

10.2 The Act states that a Licensing Authority may prepare a statement of principles that they propose to consider in determining the suitability of an applicant for a permit and in preparing this statement, and/or considering applications, it need not (but may) have regard to the licensing objectives and shall have regard to any relevant guidance issued by the Commission under section 25. The Gambling Commission’s Guidance for Licensing Authorities also states: “In their three year licensing policy statement, licensing authorities may include a statement of principles that they propose to apply when exercising their functions in considering applications for permits…. licensing authorities will want to give weight to child protection issues.” (24.6)

10.3 Guidance also states: “...An application for a permit may be granted only if the licensing authority is satisfied that the premises will be used as an unlicensed Family Entertainment Centre (FEC), and if the chief officer of police has been consulted on the application.... Licensing Authorities might wish to consider asking applicants to demonstrate:

- a full understanding of the maximum stakes and prizes of the gambling that is permissible in unlicensed FECs;
- that the applicant has no relevant convictions (those that are set out in Schedule 7 of the Act); and
- that staff are trained to have a full understanding of the maximum stakes and prizes. (24.7)

It should be noted that a Licensing Authority cannot attach conditions to this type of permit.

10.4 Statement of Principles – This Licensing Authority has not yet adopted a formal “Statement of Principles” but will expect the applicant to show that there are policies and procedures in place to protect children from harm. Harm in this context is not limited to harm from gambling but includes wider child protection considerations. The efficiency of such policies and procedures will each be considered on their merits, however, they may include appropriate measures/training for staff as regards suspected truanting school children on the premises, measures/training covering how staff would deal with
unsupervised very young children being on the premises, or children causing perceived problems on or around the premises. This Licensing Authority will also expect, as per Gambling Commission Guidance, that applicants demonstrate a full understanding of the maximum stakes and prizes of the gambling that is permissible in unlicensed FECs; that the applicant has no relevant convictions (those that are set out in Schedule 7 of the Act); and that staff are trained to have a full understanding of the maximum stakes and prizes.

10.5 (Alcohol) Licensed premises gaming machine permits - (Schedule 13 paragraph 4(1) to the Gambling Act 2005)

There is provision in the Act for premises licensed to sell alcohol for consumption on the premises to automatically have 2 gaming machines, of categories C and/or D. The premises merely need to notify the Licensing Authority. The Licensing Authority can remove the automatic authorisation in respect of any particular premises if:

- provision of the machines is not reasonably consistent with the pursuit of the licensing objectives;
- gaming has taken place on the premises that breaches a condition of section 282 of the Gambling Act (i.e. that written notice has been provided to the Licensing Authority, that a fee has been provided and that any relevant code of practice issued by the Gambling Commission about the location and operation of the machine has been complied with);
- the premises are mainly used for gaming; or
- an offence under the Gambling Act has been committed on the premises.

10.6 If a premises wishes to have more than 2 machines then it needs to apply for a permit and the Licensing Authority must consider that application based upon the licensing objectives, any guidance issued by the Gambling Commission issued under Section 25 of the Gambling Act 2005, and “such matters as they think relevant.” This Licensing Authority considers that “such matters” will be decided on a case by case basis but generally there will be regard to the need to protect children and vulnerable persons from harm or being exploited by gambling. This Authority will also expect the applicant to satisfy it that there will be sufficient measures to ensure that under 18 year olds do not have access to the adult only gaming machines. Measures which will satisfy the Authority that there will be no access may include the adult machines being in sight of the bar,
or in the sight of staff who will monitor that the machines are not being used by those under 18. Notices and signage may also be helpful. As regards the protection of vulnerable persons, applicants may wish to consider the provision of information leaflets/helpline numbers for organisations such as GamCare.

It is recognised that some alcohol licensed premises may apply for a premises licence for their non-alcohol licensed areas. Any such application would most likely need to be applied for, and dealt with as an Adult Gaming Centre premises licence.

It should be noted that the Licensing Authority can decide to grant the application with a smaller number of machines and/or a different category of machines than that applied for. Conditions (other than these) cannot be attached.

10.7 It should also be noted that the holder of a permit must comply with any Code of Practice issued by the Gambling Commission about the location and operation of the machines.

10.8 Prize Gaming Permits - (Statement of Principles on Permits - Schedule 14 paragraph 8 (3) to the Gambling Act 2005)

The Gambling Act 2005 states that a Licensing Authority may “prepare a statement of principles that they propose to apply in exercising their functions under this Schedule” which “may, in particular, specify matters that the licensing authority proposes to consider in determining the suitability of the applicant for a permit”.

This Licensing Authority has prepared a Statement of Principles which is that the applicant should set out the types of gaming that he or she is intending to offer and that the applicant should be able to demonstrate:

- that they understand the limits to stakes and prizes that are set out in Regulations;
- that the gaming offered is within the law;
- clear policies that outline the steps to be taken to protect children from harm
- that they meet the objective of carrying out gambling openly and fairly; and,
- that the premises are mainly or wholly used for gambling purposes.

10.9 In making its decision on an application for this permit the Licensing Authority does not need to have regard to the licensing
objectives but must have regard to any Gambling Commission guidance.

10.10 It should be noted that there are conditions in the Gambling Act 2005 with which the permit holder must comply, but that the Licensing Authority cannot attach any further conditions. The conditions in the Act are:

- the limits on participation fees, as set out in regulations, must be complied with;
- all chances to participate in the gaming must be allocated on the premises on which the gaming is taking place and on one day; the game must be played and completed on the day the chances are allocated; and the result of the game must be made public in the premises on the day that it is played;
- the prize for which the game is played must not exceed the amount set out in regulations (if a money prize), or the prescribed value (if non-monetary prize); and
- participation in the gaming must not entitle the player to take part in any other gambling.

10.11 Club Gaming and Club Machines Permits

Members Clubs and Miners’ Welfare Institutes (but not Commercial Clubs) may apply for a Club Gaming Permit or a Clubs Gaming machines permit. The Club Gaming Permit will enable the premises to provide gaming machines (3 machines of categories B, C or D), equal chance gaming and games of chance as set-out in forthcoming regulations. A Club Gaming machine permit will enable the premises to provide gaming machines (3 machines of categories B, C or D).

10.12 Gambling Commission Guidance states: "Members clubs must have at least 25 members and be established and conducted “wholly or mainly” for purposes other than gaming, unless the gaming is permitted by separate regulations. It is anticipated that this will cover bridge and whist clubs, which will replicate the position under the Gaming Act 1968. A members’ club must be permanent in nature, not established to make commercial profit, and controlled by its members equally. Examples include working men’s clubs, branches of the Royal British Legion and clubs with political affiliations."

10.13 The Commission Guidance also notes that "licensing authorities may only refuse an application on the grounds that:
- the applicant does not fulfil the requirements for a members’ or commercial club or miners’ welfare institute and therefore
is not entitled to receive the type of permit for which it has applied;
• the applicant’s premises are used wholly or mainly by children and/or young persons;
• an offence under the Act or a breach of a permit has been committed by the applicant while providing gaming facilities;
• a permit held by the applicant has been cancelled in the previous ten years; or
• an objection has been lodged by the Commission or the police.

10.14 There is also a ‘fast-track’ application procedure available under the Act for premises which hold a Club Premises Certificate under the Licensing Act 2003 (Schedule 12 paragraph 10). As the Gambling Commission’s Guidance for Licensing Authorities states: "Under the fast-track procedure there is no opportunity for objections to be made by the Commission or the police, and the ground upon which an authority can refuse a permit are reduced." and "The grounds on which an application under the process may be refused are:

• that the club is established primarily for gaming, other than gaming prescribed under schedule 12;
• that in addition to the prescribed gaming, the applicant provides facilities for other gaming; or
• that a club gaming permit or club machine permit issued to the applicant in the last ten years has been cancelled."

There are statutory conditions on club gaming permits that no child uses a category B or C machine on the premises and that the holder complies with any relevant provision of a code of practice about the location and operation of gaming machines.

10.15 Temporary Use Notices

There are a number of statutory limits as regards temporary use notices. It is noted that the Gambling Commission Guidance states that "The meaning of "premises" in part 8 of the Act is discussed in Part 7 of this guidance. As with "premises", the definition of "a set of premises" will be a question of fact in the particular circumstances of each notice that is given. In the Act "premises" is defined as including "any place". In considering whether a place falls within the definition of "a set of premises", Licensing Authorities will need to look at, amongst other things, the ownership/occupation and control of the premises. This Licensing Authority expects to object to notices where it appears
that their effect would be to permit regular gambling in a place that could be described as one set of premises.

The Licensing Authority can only grant a Temporary Use Notice to a person or company holding a relevant operating licence, i.e. a non-remote casino operating licence. The Secretary of State has the power to determine what form of gambling can be authorised by Temporary Use Notices, and at the time of writing this Statement the relevant regulations (SI no 3157: The Gambling Act 2005 (Temporary Use Notices) Regulations 2007) state that Temporary Use Notices can only be used to permit the provision of facilities or equal chance gaming, where the gaming is intended to produce a single winner, which in practice means poker tournaments.

10.16 Occasional Use Notices:

This notice allows for betting on a track without the need for a premises licence on 8 days or less in a calendar year. The Licensing Authority has very little discretion as regards these notices aside from ensuring that the statutory limit of 8 days in a calendar year is not exceeded. This Licensing Authority will though consider the definition of a ‘track’ and whether the applicant is permitted to avail him/herself of the notice.

11. SMALL SOCIETY LOTTERIES

11.1 Under the Act, a lottery is unlawful unless it runs with an operating licence or is an exempt lottery. The Licensing Authority will register and administer small society lotteries (as defined). Promoting or facilitating a lottery will fall within 2 categories:

- licensed lotteries (requiring an operating licence from the Gambling Commission); and
- exempt lotteries (including small society lotteries registered by the Licensing Authority)

11.2 Exempt lotteries are lotteries permitted to run without a licence from the Gambling Commission and these are:

- small society lotteries;
- incidental non-commercial lotteries;
- private lotteries;
- private society lotteries;
• work lotteries;
• residents’ lotteries;
• customer lotteries;

11.3 Societies may organise lotteries if they are licensed by the Gambling Commission or fall within the exempt category. The Licensing Authority recommends those seeking to run lotteries take their own legal advice on which type of lottery category they fall within. Guidance notes on small society lotteries, limits placed on them and information setting out financial limits will be made available on the Council’s web-site or by contacting the Licensing Team on 020 7341 5152.

11.4 Applicants for registration of small society lotteries must apply to the Licensing Authority in the area where their principal office is located. Where the Licensing Authority believes that the Society’s principal office is situated in another area it will inform the Society as soon as possible and where possible, will inform the other Licensing Authority.

11.5 Lotteries will be regulated through; a licensing and registration scheme, conditions imposed on licences by the Gambling Commission, codes of practice and any guidance issued by the Gambling Commission. In exercising its functions with regard to small society and exempt lotteries, the Licensing Authority will have due regard to the Gambling Commission’s guidance.

11.6 The Licensing Authority will keep a public register of all applications and will provide information to the Gambling Commission on all lotteries registered by the Licensing Authority. As soon as the entry on the register is completed, the Licensing Authority will notify the applicant of his registration. In addition, the Licensing Authority will make available for inspection by the public the financial statements or returns submitted by societies in the preceding 18 months and will monitor the cumulative totals for each society to ensure the annual monetary limit is not breached. If there is any doubt, the Licensing Authority will notify the Gambling Commission in writing, copying this to the Society concerned. The Licensing Authority will accept return information either manually but preferably electronically by emailing: licensing@rbkc.gov.uk

11.7 The Licensing Authority will refuse applications for registration if in the previous five years, either an operating licence held by the applicant for registration has been revoked, or an application for an operating licence made by the applicant for registration has been refused. Where the Licensing Authority is uncertain as to
whether or not an application has been refused, it will contact the Gambling Commission to seek advice.

11.8 The Licensing Authority may refuse an application for registration if in their opinion:

- the applicant is not a non-commercial society;
- a person who will or may be connected with the promotion of the lottery has been convicted of a relevant offence; or
- information provided in or with the application for registration is false or misleading.

11.9 The Licensing Authority will ask applicants to set out the purposes for which the Society is established and will ask the Society to declare that they represent a bona fide non-commercial society and have no relevant convictions. The Licensing Authority may also seek further information from the Society.

11.10 Where the Licensing Authority intends to refuse registration of a Society, it will give the Society an opportunity to make representations and will inform the Society of the reasons why it is minded to refuse registration, and supply evidence on which it has reached that preliminary conclusion.

11.11 The Licensing Authority may revoke the registered status of a Society if it thinks that it would have had to, or would be entitled to, refuse an application for registration if it were being made at that time. However, no revocations will take place unless the Society has been given the opportunity to make representations. The Licensing Authority will inform the Society of the reasons why it is minded to revoke the registration and will provide an outline of the evidence on which it has reached that preliminary conclusion.

11.12 Where a Society employs an external lottery manager, it will need to satisfy itself that the manager hold an operator’s licence issued by the Gambling Commission, and the Licensing Authority will expect this to be verified by the Society.
