THE ROYAL BOROUGH OF KENSINGTON AND CHELSEA Meeting of the Council – 4 March 2015 Item 6 – Submissions from the Cabinet

The following budget, plans and strategies were considered by the Cabinet at its meeting on 19 February 2015 and are now submitted to full Council for approval and adoption.

1. BUDGET PROPOSALS 2015-16

- 1.1 The attached report presents the Cabinet's budget proposals for 2015-16 and sets out its broad approach to revenue budgeting, Council Tax and the capital programme to 2017-18.
- 1.2 Residents, businesses, key partners and Scrutiny Committees were invited to comment on an earlier draft.
- 1.3 The plan will be published by the end of March, subject to any minor drafting or formatting changes.

1.4 RECOMMENDATION

The Council is recommended to adopt the Council's budget proposals for 2015-16 and approve its publication.

FOR DECISION

2. REVENUE BUDGET AND COUNCIL TAX 2015-16

2.1 SUMMARY

- 2.1.1 This paper sets out the following recommendations to Council on 4 March 2015:
 - ➤ A Council Tax freeze for the Royal Borough for 2015-16 at the rate first set in 2009-10.
 - ➤ Net budget reductions totalling £19 million (2015-16 service savings £15.5 million, 2013-14 service savings £1.3 million and other £2 million) meeting government funding reductions of £15 million and cost pressures of £4 million.

2.2 RECOMMENDATIONS

- (a) The Council is recommended:
 - (i) to approve the estimates as summarised in the **Revenue Budget Book 2015-16 (pages 13 60)**
 - (ii) to approve the Medium Term Financial Strategy as set out in the **Revenue Budget Book 2015-16 (page 1)**;
 - (iii) to approve the Reserves Policy as set out in the **Revenue Budget Book 2015-16 (pages 2 5)** including holding a minimum £10 million in working balances and a minimum total reserve balance of not substantially below £100 million in earmarked reserves or 30 per cent of gross spending at the end of 2017-18;
- (b) The Council is recommended, in accordance with the Local Government Finance Act 1992, to:
 - 1) Note that on 21 January 2015 the Council calculated its Council Tax Base for the year 2015-16:
 - i) for the whole Council area as **92,778** in accordance with the relevant regulations; and
 - ii) as set out in column 3 of page 10 of the **Revenue Budget Book (Garden Square Levies)** for those parts of its area to which one or more special items relate, as calculated under the relevant regulations.
 - 2) Agree the following amounts be calculated for the year 2015-16 in accordance with Sections 31A, 31B and 34 to 36 of the Act:
 - £595.956 million as the aggregate of the amounts that the Council estimates for the items set out in Section 31A(2)(a) to (f) of the Act, taking into account the special items issued to the Council;
 - ii) **£523.350 million** as the aggregate of the amounts that the Council estimates for the items set out in Section 31A(3)(a) to (d) of the Act;
 - iii) **£72.606 million** as the Council Tax Requirement in accordance with Section 31A(4) of the Act, being the amount by which the aggregate at 2i) above exceeds the aggregate at 2ii) above;

- **£782.58** as the basic amount of Council Tax for the year, being the Council Tax Requirement at 2iii) above, divided by the Council Tax Base set out at 1i) above, in accordance with Section 31B(1) of the Act;
- v) £1,414,569 being the aggregate amount of the special items under Section 35 of the Act for the purposes of Section 34 of the Act;
- vi) £767.33 as the basic amount of Council Tax for dwellings in the parts of its area to which no special items apply, being the Council Tax Requirement at 2iv) above less the result of dividing the aggregate of the special items at 2v) above by the Council Tax Base set out in 1i) above, in accordance with Section 34(2) of the Act; and
- the amounts set out in column 6 of page 10 of the Revenue Budget Book 2014-15 (Garden Square special expenses) for each garden square, being the basic amount of Council Tax for a dwelling in each area to which one or more special item applies, calculated by adding to the amount set out in 2vi) above, the result of dividing the special items for each area, set out in column 4, by the Council Tax Base for each area, set out in column 3, in accordance with Section 34(3) of the Act.
- 3) Note that page 11 of the Revenue Budget Book 2015-16 (Royal Borough of Kensington and Chelsea Council Tax) sets out the amounts of Council Tax for 2015-16 for each part of its area and for each of the categories of dwellings excluding precepts payable to other authorities.
- 4) Note that for the year 2015-16, the Greater London Authority has issued precepts to the Council in respect of the functional bodies under its control, in accordance with Section 40 of the Local Government Finance Act 1992, for each of the categories of dwellings as shown below:

	Greater

С	262.22
D	295.00
E	360.56
F	426.11
G	491.67
Н	590.00

Agree that the Council, in accordance with Sections 30 and 36 of the Act, hereby sets the aggregate amounts of Council Tax for 2015-16 for each part of its area and for each of the categories of dwellings as shown on page 12 of the **Revenue Budget Book 2015-16** (Total Council Tax).

2.3 REASONS FOR DECISION

2.3.1 The Council is legally required to set a balanced budget and a Council Tax for each financial year.

2.4 BACKGROUND

- 2.4.1 The recommendations made in this paper:
 - formalise and confirm the proposals set out in the Council's Budget Proposals 2015-161;
 - are consistent with the Council's medium term financial strategy (Revenue Budget Book, page 1) and its policy on reserves (Revenue Budget Book, pages 2 - 5);
 - ➤ follow consultation with the Scrutiny Committees and others on the proposed 2015-16 Council and service budgets (set out in the **Revenue Budget Book**); and
 - > take into account Council's agreement to the Council Tax base on 21 January 2015.
- 2.4.2 These proposals were developed in the light of the Government's Spending Review 2013 as updated by the Chancellor's 2013 Autumn Statement, 2014 Budget and 2014 Autumn Statement.
- 2.4.3 The Council's funding allocations announced on 18 December 2014 and finalised on 4 February 2015 as part of the local government finance settlement for 2015-16 is a cash reduction in grant of £15 million. This is 4 per cent of the gross revenue budget of £417 million for 2015-16.
- 2.4.4 The coming year is the third year of the Business Rates Retention scheme under which local authorities share the potential risks and rewards of changes to the business rates yield. The Council is forecasting no change to the business rates yield compared to 2014-15 as approved by Council on 21 January 2015.

2.5 PROPOSAL AND ISSUES

Council Tax and Budget 2015-16

2.5.1 The Council is proposing a Council Tax of £782.58 for 2015-16 (or £767.33 without Garden Square special expenses). If the proposal is

- accepted, the Council Tax will have been at the same level for six years (or frozen for five years).
- 2.5.2 The net service spending budget is £158 million. The Council Tax requirement is £72.6 million. Please see **Table 1** below:

2015-16 Savings and Service Budgets

- 2.5.6 Full details of 2015-16 service savings are set out in the Budget Proposals 2015-16 report elsewhere on the agenda. These are substantially as reported to Cabinet on 30 October 2014.
- 2.5.7 Detailed service budgets for operating expenditure are set out in the service estimates reports submitted to the Council as part of the Revenue Budget Book. This is summarised in **Table 1** on page 5. **The Revenue Budget Book** provides more detail.

Council Tax and Precept 2015-16

- 2.5.8 The Greater London Authority Band D Council Tax figure for 2015-16 is £295.00, a one per cent reduction on the level for 2014-15. The final 2015-16 precept was confirmed when the London Assembly met on 23 February 2015.
- 2.5.9 The Council's total Council Tax rates for each Band are shown in **Table 3** below, which also shows the percentage of dwellings falling under each band. Band G is the most numerous.

2.5.10 Full details of Council Tax due, including the Garden Square levies, are set out in the **Revenue Budget Book (pages 10, 11 and 12).**

Local Budget Planning Context

- 2.5.11 The Council planned for a minimum of £12 million of net savings with £1 million of additional property income for 2015-16 in order to deliver a Council Tax freeze². This budget proposes net service savings of £15.5 million.
- 2.5.12 The savings delivered and planned since 2010-11 total £72 million with only a small proportion 7 per cent involving reductions in services. Details of these can be found in the Budget Proposals 2015-16 report elsewhere on the agenda.
- 2.5.13 The Council is planning to deliver Tri- and Bi- borough savings from collaborative working with the London Borough of Hammersmith & Fulham and the City of Westminster of £2.5 million in 2015-16 as part of the total forecast recurrent annual savings of £11.6 million by the end of 2015-16.
- 2.5.14 As reported to October Cabinet, the Government has offered another allocation of Council Tax Freeze Grant to authorities who freeze their 2015-16 Council Tax. The Council should be eligible for this grant. A full list of external funding included in the 2015-16 budget is set out in Revenue Budget Book, page 8.
- 2.5.15 The Government has reduced the total resources available to local government since 2011-12 and this will continue. The latest forecasts assume that there will be further funding reductions for local government in future years.

The Council's Policies

2.5.16 The core financial policies are the Council's Medium Term Financial Strategy and the Reserves Policy detailed in the **Revenue Budget Book.** These remain substantially unchanged from 2014-15.

- 2.5.17 The proposed budget will continue to maintain the Council Tax rate in the bottom quartile for London and will retain a minimum of £10 million in the working balance.
- 2.5.18 It is the Council's proposed policy to ensure that total reserves do not fall significantly below £100 million or 30 per cent of gross revenue budget by the end of 2017-18³. The bulk of reserve releases are for capital investment. The latest forecast for the Council's spending plans deliver

² As set out in paragraph 5.2 of the 30 October 2014 Cabinet report <u>Medium Term Planning</u> <u>Budget and Service Prospects</u>.

³ This is confirmed within the Capital Programme 2015-16 to 2017-18 Appendix 4 'Capital Programme Funding' elsewhere on the Cabinet agenda.

- this. There is no unsustainable use of reserves to meet recurring spending.
- 2.5.19 As part of this year's financial forecasting, reserves held have been reviewed and their purpose reconfirmed or revised. The forecast for reserve balances for the next three years is set out at the **Revenue Budget Book, page 9.**
- 2.5.20 Cabinet confirmed that the minimum level of working balance should be £10 million. Full Council approval is required to reduce the working balance below that level.
- 2.5.21 The Council holds a central contingency budget for in-year budget risks. The contingency available for release is £3 million. The Council continues to make an annual contribution of £5.5 million for capital investment.

2.6 OPTIONS AND ANALYSIS

2.6.1 The Cabinet may amend the proposed revenue budget and Council Tax as set out in paragraph 2.5. The revenue budget and Council Tax are set in the context of a three year financial forecast and future budget and funding risks.

Three Year Financial Forecast

- 2.6.2 The medium term forecast or financial plan looks ahead for three years and, given continuing uncertainties over public sector funding, is speculative. As expected the 2015-16 financial year is the fifth year of local government funding cuts and the largest single year funding cut to date. Prior years have delivered higher level of savings than required to balance the budget on the assumption that this would happen. As planned the Council aims to release these savings and ongoing reserve contributions to meet the funding reduction in both 2015-16 and future years.
- 2.6.3 The three year forecast is set out in **Table 4** overleaf and based on the following:
 - ➤ A review of significant external influences and changes likely to have an impact.
 - > A projection of the Council's spending and resources.
 - > Set within the framework of medium term financial planning principles (as set out in the **Revenue Budget Book, page 1)**.

Table 4

2.6.4 The forecast makes the following key assumptions:

- ▶ Pay and price inflation of between +1 and +1.5 per cent for 2016-17 and +2 per cent per annum for future years.
- Limited unavoidable cost pressures for future years.
- ➤ Revenue Support Grant funding reductions of 30 per cent per annum for 2016-17 and 2017-18 and 25 per cent for 2018-19.
- ➤ A modest increase in the tax base each year (+0.5 per cent per annum).
- > Any fall out of remaining ring-fenced, specific grants will be contained within service budgets.

Budget and Funding Risks

- 2.6.5 Other issues for 2016-17 and beyond include:
 - ➤ Local authority funding for future years: this is clearly a key risk. Local government is expecting substantial funding losses year-on-year going forward. In addition, the Council is highly exposed to the funding losses from the government's commitment in the December 2013 Autumn Statement to clearing the backlog of National Non-Domestic Rates (NNDR) appeals by July 2015. The forecast is that this

will result in the Council moving to the funding system safety net when the appeals backlog is cleared. The Council still has over 1,200 appeals outstanding with a total rateable value (excluding duplicates) of over £200 million. The maximum funding loss before the funding system safety net operates is currently £1.9 million.

- Funding of transfers of functions from central to local government: to date no additional financial burden has fallen on the Council following the transfer of responsibility for Public Health on 1 April 2013. There are no other major transfers to local government in the pipeline.
- ➤ Exit costs to deliver service reductions: there will be unavoidable costs associated with budget reductions and Tri- and Bi-borough restructuring. The Council has reserves that it can release for such one-off spending.
- External cost pressures: these include the increasing annual costs of the Freedom Pass and any future, potential increase in the Western Riverside Waste Authority levy.
- ▶ Practical operating opportunities and risks: the Council will earn more rent – revenue income – from its property portfolio in the coming years. The cap on total benefits will potentially place further pressure on the budget for temporary accommodation. This is not included in the forecast and there are earmarked reserves available to phase in the impact.
- Changes to the Local Government Pension Scheme: Autoenrolment into the Local Government Pension Scheme is a requirement for the Council from May 2013 but the Council is permitted to and is choosing to defer this until 2017. Deferring full implementation does not mitigate all costs.
- ➤ Council Tax Support: government funding for Council Tax Benefit (now Local Council Tax Support) transferred to local government mainstream funding in 2013-14 but with an estimated 10 per cent reduction. For 2013-14 the Council's share of the cost of the scheme (Localised Council Tax Support) was £9.6 million. The Council has chosen to fully fund the local scheme. This cost is forecast to be around £8.4 million in 2015-16 – a reduction.

2.7 CONSULTATION

2.7.1 There was no direct consultation with residents with respect to the revenue budget and Council Tax for 2015-16. This is the sixth year of Council Tax levels being frozen and, so far, of the £72 million of

- savings delivered by Council since 2010-11 only £5.4 million or 7 per cent has had an impact on service levels locally⁴.
- 2.7.2 Indirectly the Council takes part in the Annual Survey of Londoners which shows the Council consistently receiving higher than the London average feedback for local services⁵.

2.8 EQUALITY IMPLICATIONS

- 2.8.1 The equalities impact of specific budget proposals have been considered in January 2015 alongside the detailed service budget reports considered by the Scrutiny Committees.
- 2.8.2 Where specific budget savings have yet to be decided in detail the equalities impact is considered and assessed by the relevant service as part of the final decision-making and implementation process.

2.9 INFORMATION, COMMUNICATIONS AND TECHNOLOGY (ICT) IMPLICATIONS

2.9.1 There are no information, communication and technology (ICT) implications arising from this report.

2.10 LEGAL IMPLICATIONS

- 2.10.1 The Council is required to set a balanced budget. The budget as proposed is balanced.
- 2.10.2 The Town Clerk is required, under the section 25 of part 2 of the Local Government Act 2003 to report on the robustness of the estimates made for the purpose of calculating the Council Tax and the adequacy of reserves.
- 2.10.3 I am satisfied that the budget calculations are robust and that the budget takes account of liabilities and financial risks, but in particular it assumes that the Council will not rely on withdrawals from reserves to meet recurrent revenue commitments.
- 2.10.4 I consider that current levels of unallocated reserves remain strong and contribute to the Council's sound financial position, reflected in Standard & Poor's AAA credit rating for the Council. For a full picture of forecast reserves levels, this report needs to be read alongside the

⁵ Please see more details in Appendix 2 of the Medium-Term Planning – Budget and Service Prospects report to 30 October 2014 Cabinet.

Capital Programme report elsewhere on this agenda and **the Revenue Budget Book, page 9.**

- 2.10.5 The Council Tax freeze should ensure an allocation of the Government's Council Tax Freeze grant which has been taken into account in setting the Council Tax for 2015-16. This is subject to final confirmation by the Government.
- 2.10.6 Following changes introduced by the Localism Act 2011, the Government has the power to require compulsory referenda on Council Tax increases above limits it sets. For 2015-16, the referendum threshold is 2 per cent. The proposal should be within the threshold change and the Council will not be required to hold a referendum.

2.11 FINANCIAL AND RESOURCES IMPLICATIONS

2.11.1 These are addressed throughout the report.

THE COUNCIL'S MEDIUM TERM FINANCIAL STRATEGY

The Council aligns its financial strategy with its ambitions through a rolling three-year cycle of business planning. The proposed Medium Term Financial Strategy is consistent with previous years.

An emphasis on sound finances

The Council's budgetary strategy focuses on:

- maintaining Council Tax in the bottom quartile for London;
- improving cost effectiveness, efficiency and income generation through reviews, particularly change programmes, and notably bearing down on the high costs of provision through the public sector;
- managing and mitigating future budget risks by forward planning;
- monitoring income and expenditure and making adequate contingencies and provisions;
- redirecting resources from lower priorities to higher priorities;
- protecting services by funding the costs of inflation;
- using external financing and cost sharing opportunities where possible;
- procuring goods and services in ways that achieve good value;
- planning for the medium term, taking into account the projection of future Government grants over the long term; and
- > speaking out for the interests of the residents of the Royal Borough on issues of strategic importance for the finances of the Council.

The Council has also established a framework of medium term financial management principles, aimed at maintaining its strong financial base. In summary, the Council will:

- maintain strong corporate governance, including an effective approach to risk management;
- > retain efficient Council Tax collection systems;
- combat fraud and employ well trained anti-fraud staff;
- conduct close monitoring of the budgetary position throughout the year, supported by the overview and scrutiny process;
- maintain financial and budgetary resilience by holding:
 - not less than £10 million in working balances;
 - earmarked reserves to mitigate future liabilities and risks to funding sources that could affect the revenue budget and destabilise service provision broadly equivalent to 30 per cent of recurrent spending; and
 - reserves to meet the costs of the capital investment programme over the next three years; and
- maintain the Council's Standard and Poor's credit rating, an external validation of the Council's financial standing, at a rate no lower than the sovereign rating for the United Kingdom.

RESERVES POLICY

Background and context

Reserves are an important part of the Council's financial strategy and are held to create long-term budgetary stability. They enable the Council to manage change without undue impact on the Council Tax and are a key element of its strong financial standing and resilience. The Council's key sources of funding face an uncertain future and the Council therefore holds earmarked reserves and a working balance in order to mitigate future financial risks.

As set out in the report, earmarked reserves are reviewed annually as part of the budget process, to determine whether the original purpose for the creation of the reserve still exists and whether or not the reserves should be released in full or in part. Particular attention is paid in the annual review to those reserves whose balances have not moved over a three year period.

Other than the Car Parking Reserve, no reserves are being used to support recurring expenditure. In principle, only the income derived from the investment of reserve funds should be available to support recurring spending.

- ➤ Capital Expenditure Reserve projections of the use and balances on this reserve are contained in the *Capital Programme 2015-16 to 2017-18* report to Cabinet on the 19 February 2015.
- ➤ Car Parking Reserve projections of the use and balances on this reserve are contained in the *Capital Programme 2015-16 to 2017-18* report to Cabinet on the 19 February 2015. Originally the reserve could only be used to fund spending on statutorily defined purposes directly related to transport. The Traffic Management Act 2004 extended the powers to include highways maintenance and environmental improvements. The planned drawdown and maximum eligible expenditure for funding in 2015-16 is shown in the table overleaf.

Strategic context

- 1. The Council is facing a significant withdrawal of grant funding and the transfer of funding risk from Government with demand for at least some services forecast to grow. The Council has to annually review its priorities in response to these issues.
- 2. Reserves play an important part in the Council's medium term financial strategy and are held to create long-term budgetary stability. They enable the Council to manage change without undue impact on the Council Tax and are a key element of its strong financial standing and resilience.
- 3. The Council holds reserves in order to mitigate future risks, such as increased demand and costs; to help absorb the costs of future liabilities; and to enable the Council to resource policy developments and initiatives without a disruptive impact on Council Tax.
- 4. Capital reserves play a crucial role in funding the Council's capital investment programme. The Capital Expenditure Reserve is used to create capacity to meet future capital investment.
- 5. The Council relies on interest earned through holding reserves to support its general spending plans.

6. Reserves are one-off money. The Council aims to avoid using reserves to meet ongoing financial commitments other than as part of a sustainable budget plan. The Council has to balance the opportunity cost of holding reserves in terms of Council Tax against the importance of interest earning and long term future planning.

Purposes

- 7. Reserves are therefore held for the following purposes, some of which may overlap:
 - Providing a working balance i.e. Housing Revenue Account and General Fund
 - Smoothing the impact of uneven expenditure profiles between years e.g. local elections, structural building maintenance and carrying forward expenditure between years.
 - Holding funds for future spending plans e.g. Capital Expenditure reserve, and for the renewal of operational assets e.g. repairs and renewal, and Information Technology renewal. Meeting future costs and liabilities so as to cushion the effect on services e.g. the Supporting People Reserve (funding the ongoing reduction in grant for supported housing); the Insurance Reserve for self-funded liabilities arising from insurance claims.
 - To provide resilience against future risks e.g. the Specific Grant Loss and the Demand Growth reserves and provide the capacity to manage risk.
 - To create policy capacity in a context of forecast declining future external resources e.g. Better City Life.
- 8. All earmarked reserves are held for a specific purpose. This, together with a summary on the movement on each reserve, is published annually, to accompany the annual Statement of Accounts. A proposal to vary the use of a reserve is subject to normal virement limits.
- 9. The use of some reserves is limited by regulation e.g. the Collection Fund balance must be set against Council Tax levels, reserves established through the Housing Revenue Account can only be applied within that account and the Car Parking reserve can only be used to fund specific spending. Schools reserves are also ring-fenced for their use, although there are certain regulatory exceptions.

Management

- 10. The Town Clerk reports annually on the adequacy of the reserves, as part of the Council Tax setting and budget report.
- 11. The approval of the Cabinet Member for Finance and Strategy is required for the release of reserves (unless already agreed by Council or Cabinet) under the Council's constitution¹.
- 12. The following matters apply to individual reserves:
 - The General Fund working balance will not fall below £10 million, within the Council's budgetary framework i.e. without the approval of Council. The minimum value is at least 10 per cent of Council Tax requirement².
 - The Capital Expenditure Reserve is applied to meet future investment plans and is available either to fund investment directly or to support other financing costs. The reserve can also be used for preliminary costs of capital schemes e.g. feasibility.
 - The Car Parking Reserve will be applied to purposes for which there are specific statutory powers. This is broadly defined as transport and environmental improvements (the latter as defined in the Traffic Management Act 2004).
 - The revenue and capital expenditure plans in the budget for 2015-16 to 2017-18 ensure that the three year forecast of total reserves do not fall significantly below £100 million or 30 per cent of gross spending (after potential forecast income from remunerative capital investment schemes).

RESERVES AND BALANCES FORECAST

This shows a snapshot of the actual and forecast reserve balances.

All reserve releases are for one-off non-recurrent spending with the bulk for capital investment.

It must be stressed that this is a forecast and as such is speculative and subject to change.

DESCRIPTION OF SERVICE			

The Housing Revenue Account (HRA) contains all the income and expenditure on goods and services relating to the provision, management and maintenance of the Council's properties and tenancies. By law, the HRA must be balanced with no contributions to or from the General Fund. Since April 1996 responsibility for management and maintenance has been delegated to the RBKC Tenant Management Organisation, and it is now responsible for most budgets. The Council retains responsibility for a limited range of budget headings which are inappropriate for delegation.

MAJOR VARIATIONS

The Management Fee for 2015-16 has been set at £10.6 million. An overall inflationary provision of 1.2% has been allowed for 2015-16. This provision will be used to fund pay awards and other inflationary increases on non-pay budgets e.g. utilities.

The cost of capital debt charges has decreased by £557,000 which is due to a decrease in the projected interest rate used to calculate the debt charges.

The 2015-16 budget includes a further contribution towards the HRA Capital Programme with an overall revenue contribution of £21.334 million assumed in the 2015-16 budget. This is a higher contribution than in recent years.

Notes

- 1. Inflation had added £50,000 to the Employee costs budget. Savings in respect of the Support Services restructure and planned savings on recruitment to vacant posts mean overall the employee costs budget has reduced.
- 2. Costs have been reduced in the Building Control (non-trading account section) as a direct result of the restructure undertaken in 2013-14.
- 3. Consultancy budgets have reduced with the removal of the one year funding for the Commercial Enterprise work.
- 4. The Pre-application Advice fees and Planning Application fees budgets have been increased to reflect higher use. The Building Control trading account income has been reduced to reflect reduced cost budgets and the lower usage of this service.

Notes

- 1. The increase in premises related expenditure is due to: £3.7m transfer of premises budgets previously held in other service areas (i.e. outside of Corporate Services); £0.8m transfer of premises contingency and security budgets from 'Supplies and services' subjective grouping; £0.5m growth in new property running costs (e.g. Malton Road Hub); £0.4m inflation.
- 2. Mainly transfer payments and subsidy relating to Housing Benefit. Also includes £7.5m efficiency dividend budget within 2014-15 'Transfer Payment' heading.
