

**Over 23 million printer cartridges are thrown away each year in the U.K. alone. These will take over 1000 years to decompose! However, you can now recycle your old printer cartridges by using our purple banks at the following sites:**

- Sainsburys, Canal Way, Ladbroke Grove, W10
- Tesco, Warwick Rd, "in recycling area adjacent to entrance/exit of car park", W8
- Sainsburys, Cromwell Rd, upstairs car park, SW7
- Fulham Road, junction with Hortensia Road, SW10

Working with Environmental Business Products Ltd, one of the world's leading inkjet re-manufacturers, we have been able to provide this great new scheme.

Recycling cartridges not only reduces waste and pressure on landfill, it also reduces the need for raw materials used to make the plastic, such as oil. Each inkjet cartridge that is recycled saves the equivalent of around 1.5 pints of oil, while a recycled laserjet saves nearly 2 pints! Re-manufactured cartridges work just like new and cost far less.

Cartridge recycling will also help to save tiny lives as it raises funds for "Tommy's", the baby charity, which carries out valuable research into premature birth, miscarriage and stillbirth.

You can bank on it!
