Re: 26 Bina Gardens TP/96/02489

This application has been withdrawn by the Council 27/11/03. The works were implemented at the time of the planning application .

As the works were being implemented it was not able to ascertain the previous use of the building as to whether it was an HMO or a guest house - one change of use would be acceptable (guest house) one would not (HMO) - in this position ~~it was~~ a decision could not be made.

In view of the length of time since the case was submitted it is expedient to withdraw the application
