Dear Sirs

**Primary care centre at 88-92, Earls Court Road, W8 - Additional works**

Further to my recent telephone conversation with Derek Taylor, I enclose a planning application for renewal of the existing roof over the rear portion of the ground floor at the above medical centre. Also enclosed is a cheque for £95.

The existing patent glazed roof has been giving numerous problems since the building was occupied nine month's ago. The health authority feel they have no option but to replace this roof with one of solid construction incorporating opening rooflights. We have examined a number of possibilities and almost all of these would require protective railing along the line of the party wall to comply with health and safety regulations. We understand that planning permission would be required and would not be likely to be granted. The solution proposed is the only one which we feel is practicable. We have attempted to keep the rooflights as low as possible. Due to the very large existing concrete roof beams the highest part of the rooflights will be a little higher than the parapet wall. We have set the rooflights slightly back from the wall so that they will not have any adverse effect on the adjacent properties. We intend to remove the existing walkways as soon as this project goes ahead which we anticipate to be as soon as planning permission as been granted.

We hope it will be possible for the Authority to deal with this quickly as our clients are anxious for the work to proceed as soon as possible.

Should you have any queries, please let me know.

Yours faithfully

Tony Mobbs
