Dear Sir / Madam,

I am writing today with regards to the planning application made by Mr C. Celesia for the installation of a 80cm diameter satellite dish at roof level of the building at 81 Queen's Gate, London SW7 5JU. It is my understanding that the planning application is dated 17/12/1999 and that Mr C. Celesia is subletting one of the rooms of Flat 4 at the same address.

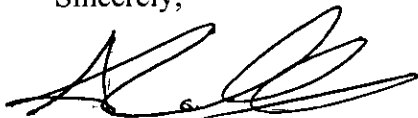

I am the leasehold owner of the roof terrace at the above address as shown in the excerpt of the Leaseholder Agreement attached. I understand from the planning application sign outside the building that Mr Celesia plans to install a satellite dish that would overhang my roof terrace and my airspace.

I would like to bring to your attention that I object to the granting of such planning permission on the basis that Mr Celesia does not have any Deed of Easement and therefore does not have any right to install a satellite dish over my roof terrace.

I have enclosed copies of the letters sent to Mr Celesia and to the Landlord of the building earlier today.

I would appreciate if you would kindly take this into consideration when making your decision on the above application. If you require any additional information, please do not hesitate to contact me at the above address or on the following telephone no.: 0171 425 2296.

Sincerely,

Alessandro Rollo
