Dear Sirs

Re : 322 Fulham Road, London SW10

Please find enclosed the following, to comprise a Planning application to extend the basement and ground floor at the rear of the above :-

- 4 copies of our Drawing Nos. 01/534/01 & 02
- 4 copies of your Planning application form, (duly completed & signed)
- 1 copy of a Certificate of Ownership (and of Notice) (duly signed & dated)
- 4 copies of a location map at 1:1250
- Fee cheque for £95.00
- 1 set of colour copies of photographs of the rear as existing

Also enclosed, to comprise a Conservation Area/Listed Building Consent application for the same works and some internal alterations, are :-

- 4 copies of our Drawings Nos. 01/534/01 & 02
- 4 copies of your Listed Building Consent application form (duly completed & signed)
- 1 copy of a Certificate of Ownership (and of Notice) (duly signed & dated)
- 4 copies of a location map at 1:1250
- 1 set of colour copies of photographs of the rear as existing

The application site is the flat on the ground and basement floors. The property was converted into two maisonettes some twenty or so years ago. This maisonette does not appear to have been altered since. However, the properties on either side have extended to the rear to different heights, as have most of the houses in this terrace.

These applications are for permission to extend the raised ground floor and basement out to the line of the adjoining buildings in matching stock brickwork with a timber balustrade and stair down to the garden level from the raised ground floor. A similar balustrade was added to No. 308 in 1989.

I hope all is in order. If you see any problems, or would like any further information, please let me know.

Yours faithfully

T.C.R. MacMillan Scott RIBA
