

## Air quality FAQs

Air pollution can harm your health and the environment. On the following pages you can find out the answers to the following questions:

- [What is the air quality like today?](#) [1]
- [How do we know what air quality is like in this borough? Find out more about our monitoring network.](#) [2]
- [What are the main sources of air pollution in the borough and their associated health effects?](#) [3]
- [How can I find out about air pollution from industrial processes \(or Part B processes\) e.g. petrol stations.](#) [4]
- [How can I find out about what air quality is like indoors, are there any sources of pollution there?](#) [5]
- Is air pollution associated with [asthma](#)? [6]
- [What is the Council doing to improve air quality?](#) [7]
- [What can you do to reduce air pollution and reduce your own exposure to it?](#) [8]
- [Where can I find your latest review and assessment report?](#) [7]
- [What do developers and builders need to know about air quality when submitting a planning application](#) [9]?
- [Am I in a smoke control area and what can I burn in my fireplace?](#) [10]
- for complaints regarding issues such as smoke, bonfires and dust, please contact the [Noise and Nuisance Team](#) [11].
