Pay it online

Information on how to make a payment to the Council which includes council tax, parking tickets, permits and more.

Is your web browser compatible for online payments?

To make sure your personal information and payment details remain protected, our online payments system has been upgraded to the Transport Layer Security (TLS) Protocol version 1.2. This means that anyone not using a compatible web browser will be unable to make payments. Please make sure you are using a compatible web browser to continue making payments.

Compatible web browsers: Internet Explorer v.11, Google Chrome v. 38 and higher, Google Android OS Browser v. 5.0 and higher, Apple Safari v.7 and higher

- Accounts receivable [1]
- Business rates [2]
- Conference and Events payments [3]
- Council tax [4]
- Debt Management payments [5] (Enforcement agent payments)
- Pay parking fines [6] (for information on challenging a fine visit the parking pages [7])
- Online parking permit renewals [8]
- Temporary accommodation payments [9]
- Housing Management payments (formerly payments to the TMO) [10]

Your security, our responsibility

The Royal Borough of Kensington and Chelsea takes internet security extremely seriously.

All online payment transactions take place through secure networks using Secure Sockets Layer (SSL). This technology encrypts all the information involved in a transaction, for example your credit card details, vehicle registration number or Council Tax account number, so that it is unrecognisable and safe.

Security indicators

If you look at your browser window you will see an unbroken key or lock which shows you the website area is secure.

We do not store your credit card or debit card details

Once you have completed this transaction we do not keep your credit card details on our servers.
