

## Christmas tree recycling

### Why recycle Christmas trees?

If you have a real Christmas tree, the most environmentally friendly way to dispose of it is to compost it.

### Where to recycle Christmas trees

If you can't compost your tree yourself, we can help through our:

- Christmas tree drop-offs
- Christmas tree collections

## Christmas tree kerbside collection

If you can't take your tree to a drop-off point, we can collect it on your rubbish and recycling collection day, between Wednesday 2 and Sunday 20 January 2019.

Before we collect it, make sure:

- you put it out before 7am on your rubbish and recycling collection day
- it's clearly visible
- it doesn't obstruct the pavement
- you've removed all decorations and pots

If you live on an estate, in a mansion block or in flats, and use communal bins/mixed recycling banks, you can take your real tree to the Christmas tree recycling points listed above, between Wednesday 2 and Sunday 20 January 2019.

Alternatively, your housing provider may also have a separate collection in place. You can check with your caretaker or property manager and make sure to ask if the trees will be composted, and won't be thrown away as rubbish.

## Useful tips

If your tree is in a pot, you can plant it out in the garden after Christmas, or (if you want to bring it indoors again next year) grow it on in a larger container.
