**Cc:** katy michael  
**Subject:** Policy CL7: Basements

This is to advise you that we agree with and support the submission made by Kathryn Michael in her email of today's date. We are particularly opposed to basements under the gardens of listed buildings and basements under existing basements such as proposed in the application by the absentee owner of which you have under consideration. We have written you earlier about this application and hope that arrived at the conclusion that it should be rejected. We have discovered that not many local residents knew about this application. We are certain that had it been more widely known, there would have been more objections.

Don and Carole Anderson
