Subject: Basements

Dear Councillors,

I am writing to say I strongly support the Council's proposals to change the policy toward basement developments in the RBK&C.

have suffered the effects of basement excavations that seriously affect our quality of life, through noise, vibration and dust, unsightly over-large unnecessary temporary constructions, scaffolding left up for years, and through the impact of construction traffic and long-term parking suspensions. Our small cul-de-sac particularly has been disturbed by these excavations, demolitions and long-term building projects.

Please take us out of our misery and limit the permits for basement developments. I would greatly appreciate having your support in favour of the proposed changes.

Yours sincerely,
Dr. Jean Arundale, Ph.D.
