Dear Sir,

I would like to support the Council's proposals for imposing stringent conditions on any proposed basement development and to associate myself with the views expressed to you by Mr Richard Henschley and others. They conform in many ways with the objections set out by me in connection with the proposed subterranean development at South End W8 in my letter of 19th November 2013 (ref App/K5600/A/13/2204526) to The Inspector at the Planning Inspectorate and of which I sent you a copy.

Yours sincerely,

Ian Jackson
