Address	Application No.	DC Officer	Date of Obs
29 Brompton Square SW3	PP/07/0649 & 650 (DC OBS 299)	Jennifer Gilbert	26/3/07
Development		Obj.	No Obj.
Subterranean development at rear		Objection	
Status of Tree(s):			
C.A. No. (if any)	T.P.O. No. & Details (if any)	Tree Work Applications	
yes			
Comments:			
<p>The development of the basement in the rear will involve the loss of 4 trees. Three are very small and easily replaced and one is in poor condition and therefore should not be an impediment to development.</p> <p>The applicants have submitted a landscaping scheme which includes the replanting of 4 sensible replacement trees (Drawing ELB-108). The only problem I have is that only 500mm of soil is shown above the basement in the sections. To support vegetation sustainably and to allow future flexibility in planting I would like to see the standard 1000mm.</p> <p>I object to the scheme purely for the above reason and my objection would be withdrawn were 1000mm of soil to be provided.</p> <p>If this occurs please attach the following condition:</p> <p><b>C18 for R18</b></p>
