- Part of the Waterman's sustainability team. BREEAM Accredited Professional and a licensed BREEAM assessor including:

Licensed BREEAM Commercial Assessor
Licensed BREEAM International Assessor
Licensed BREEAM Bespoke Assessor
Licensed BREEAM Education Assessor
BREEAM Accredited Professional
Extensive Sustainability and Carbon Design Experience

Current Projects

- To support the re- development of Finsbury Circus, assessments of carbon and energy consumption were undertaken to inform the design.
- Currently working with Siemens Wind Power to deliver a BREEAM 'Excellent' and LEED 'Gold' rated Office and Factory development in Hull. The design incorporates a number of sustainability features including; the incorporation of a wind turbine, reuse of existing dockland, and enhancement of biodiversity.
- Currently working with Morgan Sindall to reduce the Contractors site carbon emissions as part of delivering wider sustainability measures for the site.
- The new factory and office development for Siemens Lincoln achieved an BREEAM Outstanding and BREEAM 'Excellent' rating respectively.
